Fifth Libyan Desert Campaign In Furious Stage At Present

SWIRLING DUST STORMS DEVELOP

Battle For Possession Of Tobruk Goes On Steadily In Tank Clashes

(BULLETIN)

(International News Service)

CAIRO, June 15.—Hundreds of giant British and Axis tanks were locked in furious battle in the Acroma sector of the blazing Libyan dessert today with the ultimate result still in doubt.

While German Field Marshal Gen. Erwin Rommell threw the full weight of his mechanized monsters in an effort to isolate imperial troops in the Ain-el-Gazala salient by attacks northward from Trigh and Capuzzo, the Axis tanks in turn were attacked from the rear by British mobile forces, moving from the south.

CAIRO, June 15.—British and German tank forces in Libya were engaged today in the most crucial battle of the furious fifth desert campaign.

The fighting raged into its third day as German Field Marshal Erwin Rommel, defeated in his original attempt to take the fortress of Tobruk, hurled in tank reinforcements from the west and southeast.

Grave Threat

The strong Axis thrust in the triangular area formed by Acroma, in the north, Knightbridge, to the southwest, and El Adem, 30 miles below Tobruk presented a grave

Jap Air Squadron Foiled At Darwin

(International News Service)

UNITED NATIONS HEADQUARTERS IN AUSTRALIA, June 15—A Japanese air squadron of 18 to 25 fighting planes attempting a second consecutive raid on Port Darwin was driven off by United Nations interceptors which downed four of the enemy craft, Gen. Douglas MacArthur's headquarters announced today.

Reconnaissance, the communique said, revealed the presence of enemy planes before they got near Darwin and the repulse of the Jap fighters undoubtedly caused the bomber formation to turn back.

One United Nations plane was lost in the engagement but the pilot was saved.

In the Solomon Island area United Nations planes carried out a night attack against a Jap base, bombing installations at Sohana.

Coast defenses at Newcastle, 100 miles north of Sidney, opened fire on what was suspected as a Japanese submarine, the communique said.

United Nations Join Flag Day Celebrations

By JOHN W. JARRELL
(I. N. S. Staff Correspondent)

Throughout a world rocked by total war, wherever free men gathered, United Nations Flag Day was dramatically dedicated today by the democracies to the grim task of forever obliterating Hitlerism and totalitarianism, and establishing the four freedoms.

In bustling Washington, in mountainous Chungking where the Chinese have known almost five years of war, in London and Moscow, in Australia and South Africa and India, there were stirring ceremonies, solemn words, all boding ill for the Axis militarists.

President Roosevelt presided at a White House ceremony attended by the representatives of all the United Nations, their total swelled to 28 as Mexico and Philippines commonwealth formally joined the ranks, in an observance fraught with the solemnity of the occasion, President Roosevelt declared:

Double Murder Is Charged; Estranged Wife And Man Are Dead

(International News Service)

LONG BEACH, Calif., June 15—William A. Hough, unemployed shipyard worker and Oklahoma ex-convict, faced double murder charges today for the slaying of his estranged wife and a man she met only five minutes before they were shot to death.

Walking into a bar where his wife, Mrs. Inez Hough, 35, and Frederick L. Gulp, 33, a recent arrival from Philadelphia, were seated in a booth with another couple, Hough fired point blank, killing them almost instantly.

Hough told police he had served a term in Oklahoma for shooting the second of his five wives and that he had 'separated from the slain Mrs. Hough six months ago.

"I took to watching her," he said, "and I didn't like what she was doing."

Telling of watching the two couples go into the bar, he added, "as soon as they got seated I gave her what was coming to her."

Pin, Needle Drive Next, OPA Announces

Housewives' Co-operation Sought As Metal Conservation Step

(International News Service)

WASHINGTON, June 15.—OPA's consumer division today appealed for a pin and needle-saving campaign on the part of the nation's housewives.

"Don't sweep stray pins into the dustpan," OPA said.

"Have pincushions and receptacles located conveniently, so that members of your household will have a place to put the pins they pick up. Save all the pins that come fastened in clothes from the cleaner or in fresh shirts from the laundry."

Officials pointed out that the production of pins and needles has been drastically cut to conserve metal for wartime needs.

"Grandmother used to get longer service out of her needles by sharpening them with an emery bag. There is no reason why you cannot do the same," OPA suggested.

Rubber Roundup At Gas Stations

Over 400,000 In Nation Launch Purchase Of Scrap Rubber

'PUMP MAN' BUYER AND KEPT RUSHED

By PHILLIPS J. PECK
(I. N. S. Staff Correspondent)

WASHINGTON, June 15.—The nation's 400,000 filling stations put on a glorified "one cent sale" today and did a rushing business in rubber heels, teething rings, ice bags and tennis balls.

Selling gasoline became strictly a sideline as the man behind the pump put up a pair of bathroom scales and started buying scrap rubber at a penny a pound.

Under the aegis of Uncle Sam, a nation-wide campaign to collect every ounce of the country's horde of old rubber opened officially at 12:01 a. m. It will close at midnight June 30.

For Our "Scrap With Jap"

For the next weeks the slogan will be:

"Get your scrap in the scrap with the Jap."

Results of the whirlwind rubber campaign may decide whether nation-wide gasoline rationing will be ordered to save rubber.

Simultaneously with inauguration of the drive, gasoline ration cards in the eastern states were doubled in worth to provide motorists in this area with fuel to carry them over to July 15 when a permanent coupon system will become effec-

Report Riot In Hamburg

(BULLETIN)

(International News Service)

LONDON, June 15.—One of the most serious riots in Nazi Germany since Adolf Hitler came to power was reported today in a Stockholm dispatch to the London Evening Standard telling of wild disorders in heavily-bombed Hamburg, seat of the German revolution that ultimately dethroned Kaiser Wilhelm in 1918.

Seven policemen were killed, the dispatch said, and 25 dock workers immediately executed as alleged ringleaders.

All railway and automobile travel to Hamburg from any points inside Germany was banned by the government. Hamburg authorities placarded the city with firm warnings against "fresh plots against the state," the Stockholm dispatch said, indicating the riot was merely the first of a series of planned manifestations against the Hitler regime.

The Standard characterized the disorder as a "coffee" riot. Hamburg, like all German cities has long been strictly rationed in this favored commodity.

FALSE ALARM

City firemen were called to East Washington street at 7:10 o'clock Sunday evening by a false alarm from Box 48. Greatest Victory In Naval History Seen At Midway

EXCEEDS SCOPE OF CORAL SEA VICTORY

Military Officials Unperturbed By Jap Move At Aleutian Islands

By JOSEPH A. BORS
(I. N. S. Staff Correspondent)

WASHINGTON, June 15.—Still unperturbed over the Jap seizure of the Aleutian Archipelago's western tip, military and naval experts predicted today that final returns of the Midway Island battle would show it was the greatest naval victory ever scored by the United States.

The final "box score," expected momentarily, may show, according to these sources, that the success at Midway was greater in scope and importance than the famous Coral Sea victory, in which at least 37 Jap ships were sunk and damaged.

Total Tonnage Loss Higher

While the number of enemy ships destroyed and hit at Midway may not reach the total in the Coral sea engagement, naval observers asserted that Nippon's tonnage loss in the mid-Pacific battle would be much greater because of the type of vessels affected.

Preliminary reports from Midway indicated that 17 Japanese ships were sunk and damaged, of which only three or four at first were believed destroyed. Subsequent unof-

Chinese Again Charge Gas Used By Jap Forces

(International News Service)

CHUNGKING, June 15.—Japanese forces were accused again today of using gas, the first time since President Roosevelt threatened the United States would retaliate "in kind" if it were proven the Nipponese were resorting to that form of chemical warfare.

A Chinese communique charged that the enemy used tear gas in Kwang-tung province, in an attempt to blast farther into China.

No other details of use of the gas were given in the communique which dealt only briefly with the fighting in the southeastern Chinese province. The gas attack was said to have taken place along the Canton-Hankow railway.

Forced To Land After Bombing Attacks On Rumanian Oil Fields

MAY BE RELEASED ON PAROLE SOON

(International News Service)

ANKARA, June 15.—The 21 United States airmen who came down on Turkish soil when their bombing planes made forced landings, may soon be released on parole by Turkish authorities who interned them, it was reported today.

American Ambassador Laurence A. Steinhardt visited the fliers and interviewed them concerning the flight during which they reportedly bombed Nazi-controlled oil installations in Rumania and Rumanian Black Sea ports. Ambassador Steinhardt took the fliers whiskey, cigarets and money.

(Editor's Note: Observers in London said it was likely the bombers had taken off from bases in a country south of Turkey, possibly Syria. They were believed to have reached and bombed their objectives in Rumania, but had insufficient fuel to

Fined $1,500 On Food Stamp Charge

(International News Service)

PHILADELPHIA, June 15.—Vincent Marano, 52-year-old South Philadelphia wholesale and retail grocer, today was fine $1,500 by Federal Judge Guy K. Bard upon his admission of chiseling the government on food stamps.

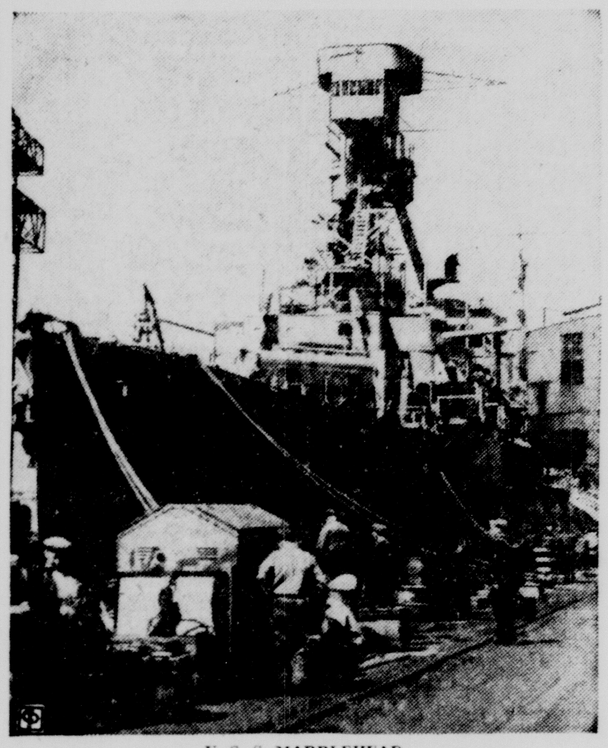

Authorities charged Marano hired "runners to round up relief clients who had not used their certificates to purchase food stamps and financed them," paying about $1 for their "services".

In addition to the fine, the agricultural department has refused to redeem $1,370 worth of stamps Marano's attorney claimed were "legitimate" returns made by customers.

'Lease-Lend Aid Battle' Being Won Reports President

(International News Service)

WASHINGTON, June 15.—President Roosevelt today told Congress that the battle of production is on the way to being won, with lend-lease aid going forward at the rate of $8,000,000,000 a year, but the battle of distribution is in its critical stage.

In his fifth 90-day report on operations under the lend-lease act, the Chief Executive said that for the three months ending May 31, aid amounted to more than $1,900,000,000, and for the 15-month period from March, 1941, to May, 1942, aid totalled $4,497,000,000 in goods and services.

"We are now making aid available at a monthly rate equivalent to $8,000,000,000 per year," he said.

"The pressing immediate problem is to distribute our weapons where the need is greatest, and to get them there in sufficient quantities in the shortest time," he said.

Men From County Board Two Leave For Final Examination Before Induction

GET FARWELL FROM CITIZENS

Another group of selected men, called up by County Board Two, left for Erie this morning at 9:35 o'clock on the Pennsylvania R. R. to receive their final examination before being inducted into the service.

As customary, a large number of people were present to see them off, and they were given a gift by the Lawrence County Service Men's Air association, who had arranged a program in their honor.

Capt. Carl Andreasen, president of the association, introduced Rev. J. Calvin Rose, pastor of the Second U. P. church, who addressed the boys, and the composite band, directed by Christian Giancotti, played a number of selections at the station before the departure of the group.

The names of the men being called up for examination are not being announced until after word has been received that they have passed their final examinations and are ready for induction. This is done to avoid embarrassment for those who do not pass the physical examination.

A great number of men will be sent to the Erie induction station during the next few weeks, replacing those men who have left the training centers for overseas duty.

Sevastopol Continues To Combat New Savage Onslaughts By Nazis

By JAMES E. BROWN
(I. N. S. Staff Correspondent)

MOSCOW, June 15.—By using 30 full divisions totalling half a million men and massing superior forces in narrow sectors of the front, the Grman army has succeeded in driving wedges into the Soviet lines at a number of places on the Kharkov front, the army newspaper Red Star acknowledged today.

Soviet troops are checking the drives and have launched counter-attacks in a number of sectors, Red Star said.

Concentration of 30 divisions on the battle-line represented an all-out German attempt to break thru at Kharkov.

Half Million In Reserve

Another half million men are being held in reserve by Nazi Field Marshal Fedor von Bock as the second battle of Kharkov nears a rip-roaring climax, dispatches to Moscow indicated.

Scrap Rubber Collection Will Be Planned Here

Following the suggestion of the President, New Castle and Lawrence County will take part in the drive to collect scrap rubber. Ross D. Rosenberger, chairman of the Salvage Committee for the Lawrence County Council of Defense announced today that a meeting of all gasoline dealers of New Castle and the adjoining townships will be held in The Castleton Hotel, Wednesday night, June 17 at 8:30 for the purpose of outlining the campaign.

The plan is to have everybody turn in all scrap rubber they can. Old tires, tubes, rubber toys, anything made of rubber in fact which can be salvaged is to be turned in. Citizens are asked to take their scrap rubber to their nearest gasoline dealer, and he will pay one cent per pound for the scrap.

The dealer in turn will be reimbursed by the gasoline companies which will pick up the scrap rubber at the various stations. All dealers of New Castle, Shenango, Neshannock, Taylor, Union, Wilmington, Washington, Scott, Hickory townships and of the boros of New Wilmington, Volant, New Bedford, Wampum and Enon Valley are asked to attend the meeting.

Arrangements will be made for a meeting in Ellwood City to take care of that boro and adjoining townships and boros.

Semi-Civil War Occurs In Rumania

Natives And Hungarian Minority In Clashes Budapest Says

RUMANIAN MOBS MAKE ATTACKS

(BULLETIN)

(International News Service)

BERNE, June 15.—Semi-civil war has broken out in Rumania between natives and the Hungarian minority, reports from Budapest said today.

War clouds were said to be gathering between Rumania and Hungary, two Axis satellites which have been at logger heads since Germany awarded part of Transylvania to Hungary.

Mobs of Rumanians, according to the reports, attacked an area inhabited by Hungarian peasantry, smashed doors and windows in the homes and confiscated all food and livestock.

Enough food supplies for only one day were left to the Hungarians, it was said. The next rations will not be alloted until July 10.

Homes Ruined

Peasants ran frantically from the fields to their homes when the attack broke out and many arrived only in time to find their houses in ruins and their barns empty.

Those peasants who resisted were severely beaten and some reported killed.

The peasant leaders took the attack as a warning from the Rumanian government to quit the country, it was said. They organized hundreds of their people and marched into Hungary. Primitive wagons carried their possessions.

They arrived in Hungary weary, sick and wounded, the reports said.

The incident was said to have aroused Hungarian diplomatic circles and resulted in greatly increasing official tension with Rumania.

Twenty Auxiliary Police At Meeting

Twenty auxiliary policemen attended the first meeting of that organization in city hall Sunday afternoon and another session has been listed for the same place Wednesday night, it was reported today at police headquarters.

Sunday's meeting was called by Police Chief W. G. McMullen.

It was addressed by Frank Hill, secretary of the Lawrence County Council of civilian defense, and W. W Irwin, instructor.

dom in the image of God, will not forever suffer the oppressors' sword. The people of the United Nations are taking that sword from the oppressors' hands. With it they will destroy those tyrants. The brazen tyrannies pass. Man marches forward toward the light."

British Celebration

In Britain, the celebration topped anything since the war began. The entire nation, it seemed, turned out, King George and Queen Elizabeth in the vanguard.

Promising victory, Britain's prime minister, Winston Churchill, referred to "our great friend, President Roosevelt", in his message, read in churches and ceremonies throughout the islands. American forces took part in British observances.

True to tradition, firecrackers and dragon processions featured the Chinese observance at Chungking, where tremendous crowds took part in services that began at dawn and continued until late at night. Fighting alone for the greater part of their five years at war, the Chinese rejoiced at the presence at their side of 27 allies.

In Moscow

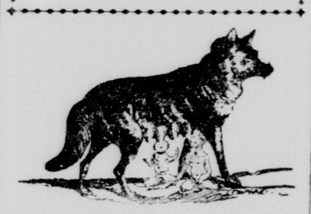

The flag of Soviet Russia flew alongside those of other United Nations in Moscow's Red Square, while in moving picture houses, in newspapers and at lectures, Russia's allies were paid homage.

In Australia, a special message from Gen. Douglas MacArthur—honored in the United States both Saturday and Sunday—was read in every church.

Thousands of American troops swung along Australian streets amid widespread celebration, as residents "down under" cheered the powerful U. S. fighting forces dispatched to aid them in the black days of last winter.

At Pittsburgh, 1,500 Polish men and women trudged through the rain to Flagstaff Hill to pledge allegiance to the American flag and the banners of the United Nations.

Friends acted as pallbearers.

Further services were held in Barberton, O., this afternoon at 2 o'clock. Interment is being made in Lakewood cemetery, Barberton.

GREATEST VICTORY IN NAVAL HISTORY SEEN IN MIDWAY

(Continued From Page One)

ficial advices intimated this total may be boosted to at least six sunk and 13 to 15 damaged.

Early reports from Admiral Chester W. Nimitz placed the Jap losses at Midway at two aircraft carriers and one destroyer sunk, and three battleships, four to six cruisers and three transports damaged.

Four Carriers Sunk

According to unofficial reports, the final score may show at least four aircraft carriers sunk, and one or more carriers or airplane tenders damaged; three battleships badly damaged; one and possibly two cruisers destroyed and four or five hit; four transports or supply vessels damaged and one destroyer sunk.

While the Jap striking force was believed to have included 18 to 24 destroyers, damage to this type of vessel was slight. Naval experts asserted that American forces probably ignored the smaller warships to concentrate on battleships and aircraft carriers.

The final score on the Midway battle is expected to affect Japan's striking power not only in the Alaskan area, but in the vicinity of Hawaii and Australia, and it was believed that the losses may soon swing the balance of sea power in the Pacific to America's favor.

Seizures Unimportant

Seizure of Attu and other Aleutian points was not considered important in naval circles, and it was believed that the United States could oust enemy forces from this area any time officials felt such an expedition was worth while.

As the north Pacific situation now stands, American naval and army air units may at any time find clear weather long enough to blast whatever Japanese warships that may still be in that vicinity.

Final outcome of the Midway battle is expected to show conclusively the importance of land and carrier-based aircraft in modern warfare. In both the Midway and Coral Sea engagements, American army and navy planes played the major role in smashing Nipponese seaborne invasion forces.

ARMY FLIERS TELL OF MIDWAY ATTACK

(Continued from Page One)

the scene of a two-day merciless attack on an enormous Jap convoy, including four aircraft carriers.

Tells Of Attacks

On the morning of June 3, they said, they received word from a Navy patrol that a large enemy convoy had been spotted 600 miles off Midway. Nine Fortresses in flying formations of three, roared into the sky with instructions to bomb the convoy.

"We had no difficulty locating the prey," said Captain Faulkner, a handsome bronzed Texan who received the distinguished flying cross last April for execution of a hazardous mission over enemy territory.

"It was the largest convoy I have ever seen. The ocean was thick with transports and warships.

"I picked out a transport, attacking from the rear out of the sun. I dropped my bombs and made a diving turn to the left as the anti-aircraft barrage started.

"One bomb scored a hit at the waterline and I observed smoke billowing from the transport. A battleship also was hit.

"We encountered no enemy planes."

Preliminary Attack

The attack on the Jap convoy was just a preliminary to the main event—the bombardment of four Japanese carriers the following day.

"We took off from Midway in bright sunlight on the morning of June 4," Captain Faulkner continued.

"About 300 miles out we received a message giving the location of the enemy carriers. They were partially concealed by a cloud layer and looked like big flat saucers floating in a bath tub.

"Believing the flight commander had not seen the carriers, and having no communication with him, I left the formation and made a run against the largest of the four carriers.

"The carriers were caught completely by surprise because they made no evading maneuvers. They had sent most of their planes off to bomb Midway and only about 35 Jap fighters circled over the carriers.

"We dropped our load of bombs. The carrires began to zigzag drunkenly to escape the bombardment, but too late.

"The navigators and bombardiers of the three planes in my formation reported one hit on the port bow and possibly other hits on the starboard bow and five near misses. We saw smoke curling up to the sky and started home.

"Four Zero fighters attacked us from a height of 18,000 feet. We shot down one attacker and then the others didn't come too close. They respected the firing power of our .50 caliber machine guns."

Apparently the Japs managed to come close enough because Faulkner's number four engine was disabled and the wings and fuselage riddled with holes.

BRITISH-GERMAN TANK FORCES IN CRUCIAL BATTLE

threat to the British eighth army but the Imperial defenders were reported holding firm.

Rommel appeared to be attempting to outflank the British northern wing in fast moving skirmishes which swirling dust storms failed to halt. Observers at the front reported that because of the speed of the battling and conditions resulting from dust storms it was impossible to determine the course of the battle.

At some points in the triangular battle area fighting was reported in progress only 12 to 15 miles from Tobruk.

Axis forces held one position on the Trigh-Capuzzo escarpment from where they lobbed shells in the direction of Tobruk.

The German forces so far, however have been unable to interfere with Imperial transport columns and a steady stream of supplies continues to pour into the British-held stronghold of Knightsbridge, 28 miles southwest of Tobruk.

Counter Action

The British reported "excellent results" in counter actions to German attempts to harass their supply routes in the El Adem area.

(German radio broadcasts of a Berlin communique claimed that Axis operations were shaping up favorably for Rommel's forces. It was claimed in a German news agency dispatch that 12,000 prisoners had been taken to date and that 600 British tanks and 300 guns were either captured or destroyed.)

It was learned meanwhile that a detailed summary has been forwarded to London and Washington by experts in the field pointing out the absolute necessity of United Nations control in the middle east war theater.

The eight-point memorandum stresses that the middle east is a vital link to the Pacific and European battlefronts as well as an important channel for shipment of large quantities of American supplies to Russia.

The summary points out that with the Netherlands East Indies in enemy hands the mideast has the sole important oil fields available to the United Nations outside the United States.

On account of the past heavy rains, which caused the long grass to become quite wet, Owen Fox states that the young fledglings of some of our birds especially robins, have become the prey of prowling cats. The young birds, recently out of their nest, naturally have wings that are not very strong. When these youngsters' wings become wet and heavy, it hinders them when attempting to rise in flight, lessening their chance of getting away from the wicked felines. Mr. Fox requests bird lovers to be on the watch for these preying cats, who ever year take a heavy toll of our valuable birds.

CHINESE AGAIN CHARGE GAS USED BY JAP FORCES

(Continued from Page One)

in Chekiang province, accusations were made that the invaders had resorted to gas.

It was June 5 that President Roosevelt condemned "this inhuman form of warfare" and said that a continuance would be regarded as if aimed at the United States.

He promised that if attacks persisted, "retaliation in kind and in full measure will be meted out."

Meanwhile, Chinese forces threatened Japanese positions in Kiangsi province today, with attacks on two towns within easy striking distance of the vital Kiukiang-Nanchang railway. One unit besieged Anyi, 20 miles northwest of Nanchang, while another simultaneously attacked Joki, 62 miles northwest of Nanchang.

FAITH

THANKS! THANKS! THANKS!

The U. C. T. Convention is over, and I really feel that New Castle outdid themselves, and that we received more advertising over the State of Pennsylvania than we could have done had we spent hundreds of dollars.

There is no use of saying how happy the Committee is, that had charge of this, as it was some responsibility.

There isn't any use to try to name all the people and organizations that we want to thank for their assistance, both in Sharon and New Castle, the New Castle News, the Police Department, the business men, the Castleton Hotel and so many others, I can not afford to pay for this ad to name them all.

So, everyone who helped in any way, we want to say "THANKS AGAIN."

DINNER AT CRAWFORDS' FOR GRADUATING NURSES

Dr. and Mrs. James D. Crawford, North Mercer at Wallace avenue, were hosts at a lovely informal dinner party, Saturday evening in their home, when they entertained nurses of the graduating class, numbering thirteen, of Jameson Memorial hospital.

Dinner was served at 7 o'clock, at a table appointed in a patriotic theme. The time that ensued, was devoted to "shuffleboard" and other outdoor diversions, on the terrace of the Crawford residence.

Composing the guest list, were nurses who will receive their diplomas on Tuesday evening at the First Christian church for having completed the required course in training at Jameson Memorial Hospital School of Nursing. They are: Helen Robert Allen, Roberta Hazel Allen, Ethel May Barris, Eleanor Louise Book, Mary Norma Donato, Charlotte Matilda Hake, Sara Jane Hares, Marjorie Jean Harris, Margaret Marie Mitchell, Carrie Nora Padula, Betty Lee Raney, Virginia Mae Szeszko and Barbara Ann Woleslagle.

MARY LESLIE WILSON TO WED HERBERT OWREY

Mr. and Mrs. Lowry Wilson, 106 Euclid avenue, announce the engagement of their daughter, Mary Leslie Wilson, to Herbert L. Owrey, son of Mrs. Erma Owrey of 802½ West Grant street.

The engagement will terminate in a wedding at a near future date.

E. E. E. E. Postponement

The meeting of the E. E. E. E. club scheduled for this evening in the home of Mrs. Herbert Hoyland, Neshannock boulevard, has been postponed.

J. F. SMITHS' BIRTHDAY IS QUIETLY CELEBRATED

Honoring John F. Smith, pioneer resident of New Castle, who celebrated his eighty-eighth birthday anniversary on Saturday, an informal reception was held at the home of his daughter, Mrs. Jennie Connor on Euclid avenue, with whom he resides, as a medium of observing the occasion.

Due to Mr. Smith being in fair health, having just gotten up and about from a long illness, the day, planned quietly, proved a most joyous one.

Included in the guest list was Judge John G. Lamoree, a neighbor of the guest of honor in his boyhood days, and Mrs. Emma Clark, of Highland Heights, an aunt of Mr. Smith who celebrated her 90th birthday most recently. Reminiscing was the main pastime of the group numbering approximately sixty, who "dropped in" throughout the afternoon and evening hours.

Many handsome gifts were presented to Mr. Smith, and an array of bouquets were also received, which decorated the house. A large tiered birthday cake was an additional remembrance from an old neighbor, all which contributed much to the days pleasure.

Round-Up Club

Members of the Round-Up club will have a hamburg fry Tuesday evening at Cascade park. The group will meet in the grove at 8 o'clock, and chairman for the event is Mrs. Anthony Buffano. Aides are: Mrs. B. J. Biondi, Mrs. Augostine Bullano, Mrs. J. V. Bullano and Mrs. Louis Gaspare.

McConnell Reunion

Reunion of the McConnell family will be held at the Sherman McConnell home, Volant, R. D. 3, Saturday, June 20, at noon.

MOUNT JACKSON COUPLE MARRIED FIFTY YEARS

Married 50 years ago in Rose Point, Mr. and Mrs. William J. Kildoo, of Mount Jackson, celebrated their golden wedding anniversary, when they received at their home several hundred callers on June 8, afternoon and evening, who came to offer their congratulations. In addition nearly 50 relatives were present for a family dinner in the evening.

Both in good health, Mr. and Mrs. Kildoo lived in Rose Point and New Castle before moving to Mount Jackson, where their two sons, Gerald and William, both live. They have three granddaughters, Mrs. Harry Smith, of Bessemer, and Misses Nadine and Janet Kildoo, of Mount Jackson. Great-grandchildren are Larry Lee Smith and Linda Lou Smith.

Among the guests at dinner in honor of the Kildoos, were Mrs. Kildoo's sister, Mrs. Olive Stoner of New Castle, and Mr. Kildoo's sisters, Mrs. Margaret Hoover, of Virginia, Mrs. Sara Reed, of Greenville, and Mrs. Eva McBride and Mrs. Millis Armstrong, both of New Castle.

Mrs. Gerald Kildoo, Mrs. Edna Kildoo, Mrs. Harry Smith, Miss Nadine Kildoo, and Mrs. Nellie Houk were in charge of serving.

EVENING OF CONTESTS FOR CALENDAR CLUB

A variety of contests interested members of the Calendar club Saturday evening in the home of Mr. and Mrs. Howard Cade, Dewey avenue, hosts. At the close of the events, prizes were awarded to Mrs. Earl Eakin and Frank Burnside. Special trophies were carried off by Mrs. James B. Kennedy and Ray Baldwin.

A delectable repast was served afterwards, the hostess being aided by Mrs. Ray Baldwin and Mrs Harry Leathers.

Mrs. Minnie Leathers of Beaver, mother of Harry Leathers, was a special visitor.

On Saturday, July 11, Mr. and Mrs. Earl Eakin of East Washington street will entertain.

Marriage Announced

At a party given by Mrs. Alfred Sellers, of Vernon street, Sharon, Friday evening, the marriage of Miss Elva Frye and William Longwell, which took place May 23 in the Croton Methodist church here, with Rev. Homer B. Davis officiating, was announced.

The bride is the daughter of Mr. and Mrs. Fred Frye, South Irvine avenue, Sharon, and was a member of this year's Sharon high school graduating class. The groom is the son of Mrs. Ward Longwell, of Prindle street, also of Sharon. He is employed at Westinghouse.

Guests at Wedding

Mr. and Mrs. C. M. McMichael and daughter, Miss Evelyn McMichael, Boyles avenue, have returned from Beaver, where they attended the wedding Saturday of Thomas Davidson and Betty Munson, both of Beaver.

MUNNELL-LAPINSKY NEWS TOLD AT PARTY

At a lovely party held Saturday evening, June 13, in the home of her parents, Mr. and Mrs. Scott Munnell of Carr avenue, Miss Viola Munnell announced plans for her marriage to Staff Sgt. Walter Lapinsky, son of Mr. and Mrs. William Lapinsky.

The ceremony will take place the latter part of June, the unique announcements revealed, the news being told with the names "Viola and Walt—June" being inscribed inside of gold weddings rings, which were concealed in miniature bouquets of roses.

The hours were devoted to contests, prizes falling to Mrs. Harold Walton and Miss Edith Fisher. A buffet lunch was a later pleasure, with Mrs. Munnell pouring.

Miss Munnell is a graduate of Princeton High School, Slippery Rock State Teachers College, and attended the University of Pittsburgh. She is affiliated with the Edport Board of Education as a teacher.

Mr. Lapinsky, son of Mr. and Mrs. William Lapinsky, of Princeton, is a graduate of Princeton High School and attended George Washington University at Washington, D. C. Prior to being inducted into the army in January, Mr. Lapinsky was a railway mail clerk working in Pittsburgh. At present, he is serving as a staff sgt. in the Air Corps of the United States Army, stationed at Keesler Field, Mississippi.

DINNER PARTY-SHOWER FOR BERNICE ANDERSON

Miss Bernice Anderson, bride-elect, was delightfully entertained a a dinner party in a tea room at Youngstown, on a recent evening, by her associates of the Bessemer Limestone And Cement Company.

A chicken menu was enjoyed at 6:45 o'clock and places were arranged for thirteen.

Informal pastimes filled in the remaining hours, with cards featuring.

The guest of honor was presented with a beautiful gift of Chantilly glassware from the group, to use in her future home.

Miss Anderson will become the bride of Everett Olson, on Saturday afternoon, June 27, at the Mission Convenant Church at Bessemer, Pa., the ceremony to be an "open church" event.

REMEMBERING GREECE

HIS people destitute and many of them starving under Nazi occupation, King George II of Greece is in the United States to sign a lend-lease agreement similar to those of other nations. Its effect will permit his government in exile, with headquarters in Britain, to take a still larger part in the war.

Unfortunately, it cannot promptly improve the condition of the 7,000,000 Greeks, the bulk of whose consumer goods and even means of production became the booty of Germany and its conquering army.

Washington and New York, between which the Greek King will divide his two weeks' stay in this country, will not soon forget how in December, 1940, the Greeks, though vastly outnumbered, repelled the legions of Mussolini, invading their classic soil from treacherously conquered Albania.

Memory, too, of the gallant stand the Greeks and Yugoslavs made in April of last year, when they refused to join the Axis as minority "partners," will never be dimmed. Hitler, with France prostrate, had counted on bringing the Balkans under the swastika, just as he had Austria and Czechoslovakia, without a fight. But he had to make one and thereby was delayed until June was more than two-thirds gone before invading Russia.

This delay undoubtedly helped to stiffen Russian resistance and played an important part in the major aspects of the war.

CANADA AIR CENTER

Canada is to become the air academy for the British Empire. This results in concentration on aviation training in the dominion.

Representatives of Britain, Canada, Australia and New Zealand signed an agreement which will provide trained airmen when and where needed, with Canada at the center of supply. Under the agreement this plan is to continue until March, 1945, and the expenditure under the plan is estimated at $1,500,000,000. Of this Canada will pay 50 per cent and Britain and the other two participating dominions the remainder.

Pupils from England and other parts of the Empire will be sent to Canada for elementary training and later operational work. Complete coordination of air training is planned with the creation of a single pool of skilled personnel ready to be drawn upon as needed.

While this plan is being developed the number of Royal Canadian Air Force squadrons overseas will be increased, the crews to be trained in Canada to the point where they will be able to Join Canadian squadrons already in action abroad.

PLENTY OF FOOD: DON'T HOARD

At its first meeting the new Food Requirements Committee received a factual report from one who should know. Secretary Wickard said that so far as he could see, there need be no rationing of food except in a few cases.

There have been rumors of pork rationing. With 10,000,000 more hogs coming to market this year than ever before, any shortage will be only temporary. There will be plentiful supplies of beef, lamb, poultry and eggs. In addition to a huge carryover of wheat, a bumper crop is promised.

This official statement from headquarters ought to put a quietus on the scare stories that are going the rounds. Every such wild report causes a rush of hoarders to the stores. Unnecessary hoarding by producing scarcity of certain articles directly invites rationing.

America is not only the arsenal but the food basket of the United Nations. No other land possesses such vast food resources. We have enough and to spare, with one proviso: the public must co-operate by not wasting food and by not hoarding.

IDLENESS AT NEW LOW

Unemployment in the United States is probably at or close to its lowest level since World War I. According to WPA estimates the unemployed in April dropped to 3,000,000, but this number includes approximately 1,000,000 supported by federal work relief.

During the same month almost another million received unemployment compensation, the Federal Social Security Board reports. So it would appear that out of the country's working force of 53,400,000 there are about 1,000,000 receiving neither wages nor unemployment benefits. Even in the predepression era the number of idle was estimated to range as high as 2,000,000 at times.

The inescapable conclusion is that industrial dislocation caused by the shifting of plants to war production has not, generally speaking, been as severe or as prolonged as was anticipated some months ago. But while that process is still going on, it is apparent that absorption of workers by essential war industries is keeping up with and perhaps outstripping layoffs by so-called non-essential industries.

This process of converting labor from peace-time pursuits to war work will no doubt continue for some time, but the end will be reached at some date and then, if additional increase in war production be deemed necessary, a real labor shortage will develop in the United States.

There is enough lead in the United States to make 40,000,000,000 bullets of 30-caliber, it is revealed, or, if equitably distributed, approximately 200 for each man, woman and child in the Axis countries.

The Parent Problem

By Garry C. Myers, Ph. D.

WARTIME PROBLEM OF CHILDREN

At the institute on personality development recently, I heard Martha Elliott, M. D. Children's Bureau, speak on "Our Children and the War." She also reported some of her observations of children in Britain.

Reminding us that many more mothers in England than here are working away from home, and that the number of working mothers here is growing rapidly, she stressed the need for more communit yaids for protecting the children of these working mothers.

She said Britain was better prepared in health measures for their children when war came to them than we are now but not so well as we in social welfare. They are, however, making rapid strides.

Dr. Elliot described some of the bad housing conditions in many of our defense centers and pointed to the need for many more day nurseries, more play and recreation places; more clinics, dispensaries and hospitals. She noted that while considerable progress has been made in town and cities near army camps for our defense forces, relatively little has been done for children and youth's recreation in these same places.

Evacuating Children

The doctor raised the oft-asked question of whether it is better to evacuate young children from cities exposed to possible air raids, thus separating them from their parents, or leave them where they are. While admitting that probably the lives of several thousand children were saved through evacuation from London before the blitz, she believed the fears and anxieties of evacuated children because of separation from their parents was greater than from air raids.

But there are points in favor of evacuating children. First less food would have to be shipped to larger cities and second more adults would be released for war work.

This expert saw the need for many more people to learn child care and wished that the trained workers would take time to help parents learn self-control and emotional poise for the sake of their children.

Let me urge every parents reading this to write a post card to the Children's Bureau Washington, D. C., and ask for a list of the available pamphlets concerning children, their care and training, especially during war time.

AGAIN, TOO MANY RESTRICTIONS

It is said that there is no State in the Union in a better position than the State of Massachusetts to deal with restrictive laws which do or might impede the progress of war work.

With excellent forethought the General Court of the State of Massachusetts has given the Governor of that State emergency powers to enable him to suspend statutes for the duration of the war.

Whatever trouble exists is inherent in the Federal system. The States differ, for example, in regulating motor trucks. The last Massachusetts legislature adopted as a compromise measure a thirty-three foot limit for single vehicles and forty feet for combination trucks of motor-and-trailer type. Increases to thirty-five feet and forty-five feet are asked. That is something for the Governor to handle.

Several States, including Massachusetts, have no uniform height

Just Folks

FUN FOR GRANDPAS

These are days of strain and stress,
Of despair and bitterness;
Days of doubt and fear and dread,
But when all is done and said
It is still a lot of joy
Being grandpa to a boy.
And as grandpa twist the curl
Of a charming little girl.

Taxes high and higher mount;
Lower falls the bank account;
Butter's thinner on the bread,
But when all is done and said
It is still a lot of fun
With a little boy to run,
With a little girl to stop
At a nearby candy shop.

Till these troubled days shall pass
We'll be rationed, tires and gas,
Metals, iron, tin and lead.
But when all is done and said
Grandpas still will be allowed
To be very, very proud
And go telling, near and far,
Just how bright the youngsters are!

Bible Thought For Today

Men can read our inner thoughts and character from the expression of the face but God can read the very heart: For God shall bring every work into judgment, with every secret thing, whether it be good, or whether it be evil.—Eccles, 12:14.

HINTS AND DINTS

Sun sets tonight, 8:30; sun rises tomorrow, 5:30.

A lot of social events could be postponed for the duration without much inconvenience to many people.

It is unthinkable that this country will go to the dogs. But if anything so dire should happen, the people would have a terrific time selecting a breed that would suit all tastes.

"I've been watching out for you fast drivers," said the policeman after he had halted the feminine driver's car. "And as soon as you came in sight I said to myself 'fifty at least'." "Oh, no officers," objected the woman. "It must be this hat that makes me look that age."

ANOTHER LAW NEEDED

Mr. Simpson was reading the newspaper.

"Here's a man got into a drunken brawl and was stabbed to death," he said aloud.

His wife glanced up from her knitting, and commented:

"In some low drinking den, I suppose?"

"No; th' paper says he got stabbed in the' thoracic cavity."

"Same thing; you'd think th' officers of the law would close such a place up."

In some places the sheep are getting hot because their owners cannot get men to shear the wool off their hides.

JUST FIFTY-FIFTY

We encountered a bellhop in a local hotel the other evening and between calls we chatted with him. It was quite interesting, and we learned a lot about the habits of the traveling public.

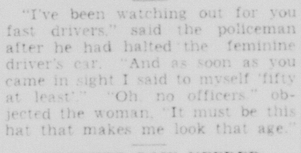

"It is true that wealthy people generally tip smaller than poorer ones?" we asked.

"It is true," he said. "The way I figure it is that the rich fellow doesn't want anyone to know he's rich and the poor man doesn't want anyone to know he's poor."

Wise people do not demand too much from their friends.

Most homes these days is a place to eat, sleep and change clothes.

A local Pap was telling his daughter that "Every time you change boy friends you get a worse one." The girl's mother butted in with "I had the same experience.

A hick town is a place where an ornery nobody has a bigger funeral crowd than a big shot if the weather is nicer.

In some places thieves are not only stealing tires but are also stealing cars to haul them away in.

A female writer declares that any man who thinks women are not good fighters has never been married.

Every time we are where folks are dancing we always hear a woman say, "I'd rather dance than eat."

Most of us pay for the trouble we borrow. Anyway, there is so much of it in the world today borrowing is unnecessary.

Now, when a tire is heard screaming on the turn, it means the driver has forgotten something.

Very often knowing where we are at means about everything.

A North Hill little boy returned from the party accompanied by his older sister, who was to tell mama just how little brother performed. "It was awful, mother," said sister. "He did all of the don'ts."

Hitler may have a future of which we, his enemies, know nothing. It is not for man to know why he didn't fall off the ladder and break his neck while hanging paper.

Of course it would not be so good if everybody had the same opinion about everything, but it would be better if there was not so much difference in opinions about everything.

War bonds are the soundest security in the world today. How many have you got?

If any person in this country is classed as an illiterate he can most always blame himself for it. He probably knows pretty well a lot of things that don't do him any good.

WEEK-END GUESTS

"I am invited to be a week-end guest at the home of a freind. What is the rule regarding breakfast? I ordinarily sleep late on Sunday morning, but wish advice on what I should do when I am visiting someone I do not know very well."—Eighteen

Answer. No doubt your hostess will advise you on this point. If she does not, ask her what time she usually has breakfast. In some houses, this meal is a set hour. In others, it may be continuous, served as each guest appears in the dining-room.

If your hostess has many servants, she may send a tray to your room. If she suggests this, you may correctly accept. But do not make such a suggestion or even expect it, for ordinarily it is not done.

While you need not get up early, do not sleep so late that the preparation of your breakfast may interfere with the luncheon of the remainder of the household.

Question: (1) Should the bread-and-butter letter be sent to the hostess only or to the host, too? (2) What length of visit requires such a letter? (3) When should it be sent? (4) Should such a letter be answered? (5) Should this kind of letter be sent even to those with whom one spends almost every week-end; for instance a relative or lifelong friend?—Grace.

Answer. (1) It should be addressed to the hostess. (2) Any overnight visit—even if for only one night. (3) Within two or three days after you arrive home. (4) It is the courteous thing to do. (5) No. After the first few weeks, you may discontinue your bread-and-butter letter, inasmuch as you spend almost every week-end there.

"OLD GLORY"

"Old Glory"—the flag of the United States—was first authorized by Congress on June 14, 1777 . . . the date is now celebrated throughout the nation by the observance of Flag Day.

"Old Glory" first flew over a foreign territory on January 28, 1778, at Nassau, Bahama Islands—Fort Nassau having been captured by the Americans in the War of Independence.

"Old Glory" received its first foreign salute by the French admiral, La Monte Piquet off Quiberon Bay, February 13, 1778.

"Old Glory" was the name given to our national flag by Capt. William Driver, commander of the brig "Charles Doggett," on August 10, 1831.

"Old Glory" symbolizes national independence and popular sovereignty. It is not a flag of a reigning family or royal house nor of any political party, but of one hundred and fifty million free people, welded into one nation, one and inseparable, united not only in a community of interest but by a vital concord of faith, sentiment and purpose. A nation distinguished for its clear individual conception of its citizens alike for their duties and their privileges, for their rights and their obligations.

"Old Glory" incarnates for all mankind the spirit of liberty and the glorious ideal of human freedom—not the freedom or unrestraint or of liberty and license, but a unique ideal of equal opportunity to each of its citizens to life, liberty and the pursuit of happiness safeguarded by the stern and lofty principles of duty, of righteousness and the justice obtainable by obedience to self-imposed laws.

"Old Glory" is said to have been flown for the first time on June 15, 1777 near Bound Brook, N. J. . . . over Washington's headquarters and to have been first under fire in the Battle of Oriskany on August 6, 1777.

"Old Glory" flies over a wonderous assemblage of people from every racial stock of the earth whose united hearts constitute an invisible and invincible force that gives to each the inalienable right to freedom of speech, freedom of religion, freedom of the press, and freedom of assembly and petition.

"Old Glory"—like the famous Bartholdi Statue of Liberty that stands at the entrance of New York harbor—serves as a beacon, enlightening the world, to the oppressed of all lands.

"Old Glory" embodies the very essence of patriotic fervor and fundamental loyalty. Its spirit is the spirt of the American people . . . a people who love justice and honor more than self. It has been brought to this proud position by love and sacrifice. Citizens have advanced it and heroes have died for it. One hundred and fifty million people will willingly fight and gladly die for it.

"Old Glory," we are humbly thankful for the privilege of saluting you and we are proud to renew our pledge of allegiance . . . "one nation, indivisible, with liberty and justice for all."

Reform late in life doesn't make a man happy. He feels too much ashamed of the years he wasted.

We're off that philosophy which teaches that one good turn deserves another.

If he says he is self-made he isn't apologizing.

World Harmony May Not Come After War
Peaceful Post-War World Is Sought For
Economic Security For All Aim Of War

By CHARLES P. STEWART
Central Press Columnist

WASHINGTON, June 15. — A permanently peaceful, happy, post-war world!

That's what the United Nations are fighting for. Momentarily they're resisting murderation, to be sure. However, their ultimate objective, after attending to the would-be murderers, is to make this planet a safe, pleasant place for all concerned—for the peoples of the Axis nations as well as the United ones.

Vice President Henry A. Wallace made a speech on the subject the other day. Shortly beforehand, State Undersecretary Sumner Welles had made a similar one. In a way Sumner's talk was more impressive than Henry's, because Henry always has been a dyed-in-the-wool altruist, whereas Sumner has gone in quite exclusively for practical diplomacy. What Henry says is what he HOPES for. Sumner tells what he's definitely FIGURING on.

There's much economic chat also.

It's of an international nature, like the other gabble, but it concentrates, more especially than that does, upon the situation we'll find our U. S. selves in, as we try to get back to a fresh spell of "normalcy" —Warren G. Harding's term.

Demobilizing

The question arises:

Won't it disorganize us like fury when we come to demobilize back into civil life, four to ten millions (depending on how long the scrap lasts) of doughboys, bluejackets, marines, cannoneers, aviators and assorted branches of our belligerent subdivisions (I trust I haven't omitted any of 'em)?

The answer is:

By no means.

It seems we shan't demobilize at any such rate. Why not? Why, because we'll have to maintain a tremendous force to police the then-vanquished Axis cannibals.

They'll still hate us. We'll still distrust 'em.

Does anybody suppose that Germany'll be otherwise than Teutonic any more than it was in 1914 or subsequently, no matter how this war ends?

The anti-Axis folk agree that it won't, without any argument.

Heck, no—concur prophets like Henry Wallace and Sumner Welles; it'll have to be policed indefinitely. That's what'll occupy some millions of democratic troops, on into a few generations at least—keeping those Germans squelched until their current meanness wears off from 'em—if it can do it, everlastingly.

It probably can wear off from the Italians. They can get civilized.

The miscellaneous Europeans, in spots, aren't numerous enough to assess.

The Russians are a problem. That's an issue of one generation or more.

We and the English. We're accidentally one and the same aggregation.

We'll get along.

We Can Get Along

We'll get on with the United Nations. We'll get on with the New World folk. We'll get on with the Old World folk that the Nazis have stung. We'll get on with the imitationally totalitarian group like Italy and Spain.

They'll want to get along with us, anyway.

But WE won't want to do it.

Now, how's the world going to be so nappy?

Germany's to be OCCUPIED. We're to boss it—absolutely!

And the theory is that it'll make for international harmony.

Vice President Wallace and Secretary Welles have got to do some more orating to convince me.

What Noted People Say

(International News Service)

WASHINGTON—President Roosevelt launched the scrap rubber campaign: "One thing you can be sure of—we are going to see to it that there is enough rubber to build planes to bomb Tokyo and Berlin—enough rubber to build tanks to crush the enemy wherever we find him—enough rubber to win this war."

WASHINGTON — Secretary of State Cordell Hull denounces Nazi terror at Lidice: "This latest example of mass terrorization through wanton butchery of hostages and brutal torture of innocent women and children shocked and outraged humanity . . . I am not surprised that Hitler has revived this unspeakable relic of the darkest periods of history. His act is thorough keeping with all that he represents."

A UNITED STATES BASE IN NORTHERN IRELAND — Major General Russell P. Hartle issues a special United Nations flag day pledge: "We will jointly carry relief to the oppressed who, despite their severe torture, still hold faith that truth, honor and dignity shall prevail."

WASHINGTON—King George II of Greece declares the spirit of the Greek people has not been crushed: "We remain determined to persevere in ever-growing strength until Greek soil has been cleansed of the enemy to the last man and the world is free to live in peace."

If a man could make motor fuel of our atmosphere, and thus use up the air we breathe, would it be permitted? Then why permit the waste of soil?

By bombing cathedral towns instead of tank factories, the Germans reveal their dangerous mentality. It is the spite work of bad boys.

The Great Game Of Politics

Now They Can Be Told

WASHINGTON, June 15. THE PRESIDENT said the other day that production of war materials had reached a point where it would be more hurtful than helpful to the enemy to make public the figures—and that he would try to get some. That significant statement is a tribute to the industrialists of the country.

TO MANY of these he is—and has been—personally hostile and for ten years most of them have been used as targets by his Administration. Yet, after eighteen months, it is the job that industry is doing to which he points with pride—and justly. Because everybody concedes now that, though slowed down by labor troubles and hampered by long administrative indecision and red tape, an industrial marvel has been achieved in the conversion of the plants and the turning out of the stuff. As things are today, the war and defense contractors are ahead of the President's own optimistic schedules proposed last January.

ACTUALLY THEY are producing planes, tanks, guns, munitions and war supplies faster than they can be used. It no longer is a question of production; it is a question of transportation to our own armed forces and to our allies abroad. It is interesting that production has now become the big thing of which the Administration has to boast—actually the one thing. Industry is magnificently doing the job because the Fords, the Sloans, the du Ponts, the Bruces, the Girdlers, the Weirs, the Kellers and other men of that type put aside thoughts both of politics and profits and buckled down to do the job.

MR ROOSEVELT'S statement is the best evidence of how well they have done it. Nor is its value diminished by disclosure that an occasional contractor has been making too much money and evading taxes through the bonus system. Those things are not true of the leaders

If we havn't made some kind of a trade, David Harum lived in vain.

Our announcement reads one way but if there is something between the lines and it's good we are for it.

Full text of the British-Russian agreement has been released here but the pigeons have not yet come in from Washington with the United States-Russian agreement text.

That's all right too, if it's good for us and necessary.

HAPPIGRAMS

by ERICH BRANDEIS

So it strikes you funny when you are asked to save tin cans, rubber and bobbie pins!

You think it's just to scare you? Well, here's what the War Production Board says:

One month's supply of baby pants will make 2,800 rubber life rafts such as the Navy fliers lived on for thirty-five days in the mid-Pacific.

The steel used last year for bobbie pins will make 16,000 one-ton aerial bombs. The cork in beer and pop bottles will make 4,000,000 life preserver.

The steel in one set of golf clubs will make thirty hand grenades. The aluminum from 7,700 pots and pans will make a pursuit plane. A gallon of gasoline saved next Sunday will bring a bomber a mile closer to the enemy.

And, by the same token, that gallon of gasoline may keep the enemy's plane a mile away from your home; that cork from your beer bottles may help to keep your brother or son or sweetheart afloat until he is picked up by the rescue boat.

Remember, you are not saving for Mr. Roosevelt or Mr. Morgenthau or Mr. Nelson.

You are saving to save your life!

City's Gaston Park Presents Real Appeal

Gaston park is one of the most exquisite sections of Lawrence county and anyone who cares to hike through New Castle's nature-adorned 37 acres will be firmly convinced after a visit, that it is there that Mother Nature protrays her gorgeous loveliness.

There is no rant nor shout, no mobs filing about carnivalistic attractions and neither is there the hubub of travel. Instead there is that quietude sought by the nature-lover, the family group bent on a basket dinner party, or a safe place for children to play.

Throughout the wide, picturesque expanse are countless trees, close-cut lawns, a stream of running water, flanked by stone walls; up-to-date, yet neat fire-places where a family or single group may prepare a steak or broiled chop o'er an open grill.

Nine Shelters

Should the elements not act harmonicasly and rain descend there are nine shelters which afford relief from the pelts from the skies. The trees are in splendid health and there isn't much fear of any ordinary storm bowling over any of the "wealth of the future."

Much of the gorgeous splendor in Gaston park is due to Owen Fox, a true lover of nature and one skilled in Mother Nature's ways. In fact, the city forester knows when a tree or bush is ill and what to prescribe, hence the city can feel fortunate in possessing such a citizen.

Some time ago Presiding Judge Walter Braham appeared before city council and pleaded for the wealth of the future—trees and more trees—and council, harkening to the appeal ordered thousands and more thousands.

Fox was given the task of rearing the evergreens and other specie and today in every section they are proudly pointing their heads into the sunlight. Some of the Evergreens have attained a heighth of two feet and as the forecast, a score of years from now will represent a wealth of beauty, alone.

However, the Evergreens are not the most important trees. There are Stately Hawthornes, beautiful black Populars, dogwood, both white and red, and also red bud. In fact, of many planted years ago in this section it is reported only the red buds in Gaston park are growing. Walnut and butternut trees, oaks, maples, add to the park's beauty. In addition there are beautiful rose-bushes and they, too, are showing their splendor at this time.

In addition to helping Mother Nature do her duty, the city forester, has a miniature Zoo at the park. In it are coons, great horned owls, doves, pheasants and a porcupine. However, Fox proposes to eliminate the Zoo feature because he is too busy to care for the wild life.

Throughout the park are neat signs asking that wild life be protected; that, when timber burns, everybody loses and other timely warnings. Walks are in good condition, likewise the roads and the city can well be proud of Gaston park.

Development has been under way for years. Present Councilmen D. O. Davies and Joseph D. Alexander have aided its development as did the former Councilman Louis G. Genkinger, each of whom, at different times, occupied a city role as director of park grounds.

Vacation School Opening Today At Gospel Tabernacle

The opening bell for the Daily Vacation Bible school was heard this morning in the Alliance Gospel Tabernacle, 210 Pearson street. Miss Ruth Blews is superintendent.

This is the second time that a vacation Bible school has been conducted in this church, the other having been in charge of Della Collins Smith, now a missionary to Colombia, South America. Since that time, many new methods for the teaching and operation of these schools have been introduced and will be applied here.

Classes have been arranged for boys and girls from five to 17 years of age. Oral teaching, picture work and flannelgrams will be used. Graduating exercises have been arranged for the closing night of the two-week session.

Assistants at the school include: Mr. and Mrs. Paul Butler, graduates of the Missionary Training Institute, Nyack, New York, Mr. and Mrs. Thomas Constance, graduates of the same school, Mrs. J. H. Boon, wife of the church pastor, Mrs. Ruth Lutz, local lay woman, and Edward Jenkins, 18-year old pianist who will be in charge of chorus work.

THRIFT . . .
An Old Word With New Meanings.
It's a sad truth that many people have always been a little ashamed of being thrifty. There was too much of "keeping up with the Joneses"—too little pride in living within income. • All that is changed now. Good Americans are learning the satisfaction of making a little go a long way—of doing without unnecessary luxuries and services. • These people by the million are joining the ranks of Penney customers — people who have always bought for cash, who have always carried their purchases home—who have always practiced the thrift to which patriotism now compels us all.

TO OPPOSE PARDON

District Attorney L. K. Donaldson will go to Harrisburg Wednesday and on Thursday will oppose the pardon application of John Dewey Seevers who is serving two life sentences for murder.

CASES FILED

Among the cases filed in the office of prothonotary and clerk of courts for trial are the following:

The case of Stanley Veon, father of Lloyd Veon, against Robert Schillinger and Clinton Schillinger has been compromised in the amount of $400. The son, Lloyd Veon, was injured May 10, 1942, when the car of the defendants struck the Veon car on Route No. 224 in Mahoning county, O.

Peoples Bank of New Castle files a suit against Rachel Frank, Perry Frank and Molly Gestner to recover $9,490.52 on a mortgage.

J. Clyde Gilfillan files a writ of foreign attachment against Gordon J. Brownlee and Elsie Brownlee, his wife.

Russell W. Dean and Blanche E. Dean file a foreign attachment against Edward Louis Sennick.

Mary L. Sanfelice asks a divorce from Edward Louis Sanfelice charging cruel and barberous treatment and indignities to person. They were married July 15, 1936 in New Cumberland, W. Va.

John Jacobson files a suit for $4,584 against Antonio D'Ambrosio. Jacobson charges that he hired D'Ambrosio to bale straw on his farm and while so engaged, fire from the baler engine ignited the straw stack and destroyed the barn and contents.

Clara E. Cotton files a suit for $63.80 against Lewis D. Buckley and Iva C. Buckley. It is charged that the plaintiff purchased a property from the defendant in which it was said the title was clear. Investigation revealed a paving lien was lodged against the property. The suit is brought for the lien.

Eva Suzow of New Castle asks a divorce from William Suzow of New Castle on the grounds of cruel and barbarous treatment and indignities to person. They were married on November 11, 1933.

The HOLC files he following suits in amicable ejectment against Frank and Virginia Weathersby Andrew and Stella R. Kovach, David and Mary Abraham, Frederick and Estella Reider, Frank Galassi.

Stress On Scouting Tops Camp Program

With World At War, Troops Will Study Democracy Foundation

Scouting—part of the foundation of American democracy—will get greater emphasis than ever before during the coming summer Boy Scout camp program, leaders indicated today.

Scouting is important, (1) Because, the art of living successfully in small groups is the very foundation of democratic life and we must maintain this as well as defend it.

(2) Because, the normal activities of the camp, hiking, swimming, rowing and other physical action interests will aid in developing physical fitness, agility, balance and stamina.

(3) Because, in the controlled environment of our camp, relationships develop that make camp a school of good character.

Scouting is just that—it's healthy, it's clean, it develops the boy physically, mentally and spiritually—it develops citizenship, resourcefulness and self reliance. The Boy Scout camp is ready to teach just that. Emergencies such as we are experiencing now call for such a program.

Your boy can help in many cases. Don't let him meet them unprepared.

Camp Phillips opens June 28.

New Castle Motor Club Gets Honors

Awarded Handsome Placque At State Convention For Membership Increase

New Castle Motor club was one of the honor clubs at the state convention of the Pennsylvania Motor Federation which closed Saturday in Wilkes-Barre, B. N. Hanlon, secretary and manager of the local club stated today.

For its increase in the number of members, and the percentage of increase over the prior membership, the New Castle club won first place in its division and was awarded a handsome placque. This is on display in the motor club office.

One sad feature was seen at the convention. A resolution of regret and sympathy was passed over the presumed death of Thomas Rudderow, former general manager of the PMF. Mr. Rudderow was called back into service by the United States Navy as a lieutenant-commander in charge of a sub-chaser. His boat is four weeks overdue and is presumed to be lost.

Mr. and Mrs. Hanlon attended the convention and found Wilkes-Barre a hospitable convention city. Following the close of the convention they made a trip through the Pocono Mountains.

Midway Island Victory Encourages Belief That Axis Defeat Is Certain

By KINGSBURY SMITH
(U. N. S. Staff Correspondent)

WASHINGTON, June 15—America's great naval victory in the battle of Midway Island, coupled with favorable developments on other World War fronts, today encouraged the belief in some diplomatic quarters in Washington that ultimate defeat of the Axis has now approached the stage of "mathematical certainty."

Their belief is based on the following deductions:

1. America's war production program is entering the "offensive stage," in which it is able to outstrip the Axis in the construction of ships, planes, tanks, and other implements of war.

2. Because of America's superior production program, it will be impossible for Japan to recover from the losses sustained in the Midway battle in time for it to regain naval supremacy in the Pacific.

3. Superior American weapons, especially tanks and anti-tank guns, appear to have enabled the British to hold in check German General Erwin Rommel's attempt to drive through Lybia and the Suez Canal.

4. Failure of the Luftwaffe to interfere seriously with the British mass air raid on the Ruhr indicates Hitler does not possess enough planes for a major war on two fronts.

5. Stiff resistance shown by the Soviets in the opening phases of the German spring drive in Southern Russia indicates that Hitler may not be able to smash the Russian armies this summer.

U. S. Agency Puts Forces On Hunt Of Farm Scrap Rubber

Department Of Agriculture County War Boards Are Mobilized

(International News Service)

HARRISBURG, June 15.—All personnel resources of the U. S. Department of Agriculture county war boards are being mobilized for an intensive drive in rural areas for scrap rubber, State Chairman James E. Walker announced today.

Answering President Roosevelt's request, the boards will endeavor to obtain and learn how much rubber is available throughout farming districts. The drive will be in progress during the next two weeks.

Gasoline filling stations will serve as collection points and will pay one cent per pound for scrap, Walker explained. The cost of collection and bulk transportation will be paid by the oil companies while profits will be turned over to the war relief agencies.

Working in the salvage campaign will be the personnel of all federal agricultural agencies represented on the U. S. D. A. State War Board, including approximately 2,600 county and community committeemen of the Agricultural Adjustment Administration.

Two More Nations Against Dictators

Mexico And The Philippines Join 26 Others At Flag Day Ceremonies

(International News Service)

WASHINGTON, June 15.—Twenty-eight nations today stand united in vows to uphold the flag of democracy against the dictator nations.

The ranks of the United Nations were increased from 26 to 28 as Mexico and the Commonwealth of the Philippines became members at an impressive Flag Day ceremony at the White House.

As the representative of each United Nation stood in front of his nation's flag, forming a colorful "V", President Roosevelt told the world that German and Japanese military overlords would be destroyed by the sword that Allied forces are now wresting from their hands.

Sitting at Abraham Lincoln's cabinet table, along with Secretary of State Hull, Mexican Ambassador Najera and President Manuel Quezon of the Philippines, Mr. Roosevelt also made a dramatic appeal to the German and Japanese people to choose between the military regimes that now oppress them and the four freedoms.

J. F. Dusenberry, of Pittsburgh, district manager of the Car Service division of the Association of American Railroads, will be guest speaker at the weekly luncheon in The Castleton Wednesday, June 17. Wayne A. Hart will be in charge.

Swamp Murder Suspect Quizzed

Cleveland authorities were questioning today a suspect in the Kingsbury Run, Cleveland, McKees Rocks and West Pittsburg swamp torso murders.

He was arrested in Cleveland, Saturday.

Detective Peter Merylo claims the man says he is a student of Hindu philosophy and recently was released from a Harrisburg, Pa., hospital and made his way to Cleveland via Pittsburgh, New Castle and Youngstown.

The detective also asserted the suspect had intimate knowledge of the West Pittsburg swamp and "hobo camps" throughout the country.

So far State Motor police here have received no information concerning the suspect from the Cleveland authorities, they reported today.

Reports Diamond Rings Are Stolen

Mrs. Fred W. Speyer, 707 Wilmington avenue, Saturday night, reported to police headquarters her home had been burglarized of diamond rings and cash she valued at $3.165. Authorities have sent out a warning to mid-west authorities to be on the alert for a suspect.

One diamond ring was valued at $420; another at $1,300 and a third, containing a diamond and two sapphires, at $1,300. One hundred and forty-five dollars in cash was stolen. The rings and money were taken from her pocket book, she reported.

Mrs. Speyer was shopping at the time of the theft, which was placed between 8:25 p. m. and 10:20 p. m.

The burglar reportedly pried open a window leading into a bedroom on the first floor.

A neighbor heard window glass break and dogs owned by Mrs. Speyer, barking, police were informed.

The Parent Problem

By Garry C. Myers, Ph. D.

(Continued From Page Four)

He always wants to be about the house with me.

A. Of course, just as any other normal child would. Expect this youngster to be with you and other persons about the house. As you go about your work give him something to do or play with, such as a toy sweeper. Listen to his talk. Answer his questions without ceasing. Try to enjoy the little tyke. Attract a playmate of his age to your home and let him go to another home occasionally where a playmate is. Read to him several time a day. Dad should, too, and make things with him.

In 1890, at Montrouge, France, Fernand Forest put his four-cylinder engine, its carburetor, its water-cooling system, and its magneto ignition on a wagon chassis—thereby creating, it is said, the first four-cylinder automobile.

The Great Game Of Politics

(Continued From Page Four)

of industry who really have performed this production miracle. One does not have to ascribe to them any greater degree of patriotism than that possessed by other people, but certainly they must be credited with no less. Even if it is said that not to be concerned about profits isn't patriotism but just enlightened selfishness, the fact remains the same.

CONSIDERING THE relations between the industrial leaders and the President, what they have done and his praise of it constitute about as stimulating an example of national unity as we have. It makes it pertinent to recall what Marshall Hindenburg in his World War "Memoirs" said of American industry: "Her brilliant, if pitiless, war industry," the marshal wrote, "had entered the service of patriotism and had not failed it. Under the compulsion of military necessity, a ruthless autocracy was at work—and, rightly, even in the land at the portals of which the Statue of Liberty flashes its blinding light across the sea. They understood war."

THIS HINDENBURG comment upon our war industry of 25 years ago is equally applicable to the war industry of 1942. Incidentally, it is interesting to note that the man who last time was the chief official factor in war production—Mr. B. M. Baruch—is, unofficially, a considerable factor now. Until very recently, Mr. Baruch has not been even on a committee. Nevertheless, for a year before Pearl Harbor he spent most of every week in Washington. Recognized as the best informed and experienced man in the country on the subject—recognized, too, as having no political or personal ax to grind, the story of the Baruch contribution is an extraordinary one.

WHEN PEARL HARBOR happened he just took up residence here for the duration. He made up his mind that no one was going to make him mad and that nothing and nobody was going to discourage him from doing everything he could to help win the war. He has been in and out of the Presidential doghouse a number of times. Sometimes he would lunch with the President once a week; sometimes he wouldn't see him for weeks. He has been pushed around and patronized by self-important little people unused to authority. He has been sneered at as senile and self-seeking. He has permitted none of these things to disturb or divert him. He has kept right on making himself available, doing everything he was asked to do; showing no resentment when his advice, after being sought, has not been taken, no irritation at being overridden by the inexperienced and confused.

LITTLE BY little he has seen the sound and tested things he urged, first rejected, finally adopted. Today the War Production board is operating largely on the lines of the old Baruch War Industries Board. Mr. Nelson has had the good sense to consult him on policy from the start. A good deal of time has been lost and the same competency at the top does not exist. But things are going infinitely better than they were. Today the disinterestedness and the ability of Mr. Baruch are generally accepted here and his advice is regularly asked and taken by those in charge. He has shunned publicity and has sought no credit. Nevertheless, his unshakable patience and unflagging persistence are reflected in those production figures which the President now rightly thinks it would discourage the enemy to know.

The World and the Mud Puddles

(Continued From Page Four)

limit. At a conference of representatives from the Northeastern States, the twelve and one-half foot maximum was proposed. That is another thing for the Governor to handle.

The greatest trouble for truckmen in the East is the absence of general reciprocity as to registrations. The State of Maine requires separate permission for the use of its highways. New Hampshire allows very little more freedom. New York, Pennsylvania and New Jersey are also offenders. It is proposed in the interest of speedy war work that all of these restrictions be removed and that a truck licensed to do business in one State be allowed to carry its produce into another state without special licenses.

The people of the State of Massachusetts believe they are more or less the under-dog and are very much interested in removing all restrictions upon trade—interstate and intrastate trade. No problem is more complicated than that arising from milk deliveries. For instance, more than one-half of Boston's milk comes from the outside by truck. There are State laws, city and town ordinances to be complied with, and no one municipality accepts inspection of another as final. The result is a wasteful, expensive, irritating, indefensible clutter of reports and certifications, recalling conditions which were common while the original Colonists were governed under the Articles of Confederation. Then each State did pretty much as it pleased, to the disadvantage of the country as a whole.

By the adoption of the Constitution of the United States all of these conflicting laws we supposed to be eliminated. As a matter of fact, they have not been and the courts, including the Supreme Court of the United States, does not seem to pay much attention to the requirements of the Constitution.

JOIN THE U. S. ARMY AIR FORCES AND

Pay Them Back In Person!

100,000 Men Aged 18 to 26 (Inclusive) Are Needed Now for Officers' Training!

NEW SIMPLIFIED REQUIREMENTS

Are you *fighting mad*—aching to pay back those Japs and Nazis for those treacherous attacks on us?

Then here's your chance to return the call *in person*. A chance to see Berlin and Tokyo through a bombsight, carrying a wallop that can blast a fort to smithereens.

The greatest air armada ever known is in the making—and the U. S. Army Air Forces are looking for officers—men like you to become bombardiers, navigators, pilots.

DIPLOMAS NO LONGER REQUIRED

For the first time, Officers' Training Schools are being opened to all young men—irrespective of their education—who can qualify. This includes married men as well as single—men in business, industry, high school, college—*all* men 18 to 26 (inclusive) who can meet the new, simplified requirements for physical and mental fitness.

You probably can qualify—so apply now! You will then go into Aviation Cadet ranks as quickly as facilities are ready—take the best aviation training in the world while you receive $75 a month, with expenses paid.

AFTER YOU ARE COMMISSIONED

In less than a year after you start—usually 8 months—you can earn the right to be a Flying Officer—one of "The Three Musketeers of the Air"—Bombardier, Navigator, or Pilot—ready to fly high and *hit hard* for America.

Or—if you have been to college and have studied the right scientific subjects—you can try for a commission as a ground duty officer—in Armament, Communications, Engineering, Meteorology or Photography.

This past year about 80% of all Aviation Cadets won commissions—of which 67% are now flying officers. So your chances are excellent.

When you become a Second Lieutenant with the U. S. Army Air Forces, your pay ranges from $183 to $245 a month. Advancement should be rapid because of the tremendous expansion program of our air army.

And after this war is over and the curse of Hitlerism ended, experts predict that aviation will be the greatest of all growing industries. By training and experience, you will be in the forefront of those opportunities.

FLY WITH US—FIGHT WITH US

If you have thrilled to the mighty deeds of Army airmen, here is your chance to join them.

America's planes are rising fast—by the thundering thousands every month. That's why we want every qualified man *to apply now* for Officers' Training.

For further information . . . drop in any Army Recruiting and Induction Station for a friendly chat. If you would like to enlist now with one of the Aviation Cadet Examining Boards, arrangements can be made for you to take your mental and physical examinations the same day.

The sooner you apply, the sooner you will go on the list for immediate training. Join now. Fly with us—*fight* with us, 'til the last Axis plane is shot out of the sky!

NOTE: Those under 21 years of age will require parents' or guardian's consent. Birth certificates and three letters of recommendation will be required of all applicants.

THREE WAYS TO ENLIST

All Men of 18 to 26 Years (inclusive) who pass their Aviation Cadet examination and apply for immediate Air Cadet training,

1. may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training,

2. or they may enlist in the Air Corps Enlisted Reserve and wait until they are ordered to report for Aviation Cadet training.

3. In addition to the two ways outlined above College men and High School seniors (upon entering college) aged 18 to 26, inclusive, may enlist in the Air Corps Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standings.

Upon graduation or withdrawal from college, men will be assigned to active duty at a training center as facilities become available.

If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any time by the Secretary of War.

The new Army Air Corps Enlisted Reserve Plan is part of the over-all Army Enlisted Reserve program.

This program provides opportunities for college men to enlist on a deferred basis and to continue their education. However, all students who enlist in the Army Air Corps Enlisted Reserve on a deferred basis to continue their education will be required during their second year to take a qualifying examination prescribed by the War Department to determine if their college work justifies further deferment.

In case of necessity, the Secretary of War shall determine when they may be called to active duty.

This plan has been approved in the belief that continuance of education will develop capacities for leadership. (Reserve enlistment will not alter regulations regarding established R.O.T.C. plans.)

FISH DRUNK FROM SHENANGO RIVER

Police of the United Engineering & Foundry company Saturday afternoon fished a reported "drunk" from the Shenango river, according to a report made to city police.

When fished out the man was "wet" inside and "wet" outside, but otherwise uninjured. He was discharged in police court Sunday morning.

TWO YOUNG GIRLS DIE IN MIDNIGHT CRASH

NEWARK, O., June 15.—Two girls, Joan, 17, and Judy Karshner, 16, sisters, of Columbus, were killed last midnight when a passenger car and bus crashed head-on in a blinding rainstorm at Hoes Corners.

The problem will solve itself. With few cars and no little filling stations on the lonely road, people with thin tires won't risk driving far.

New Study Courses Start On Thursday

Registration Tonight And Tuesday Night, For Free Instruction Here

Opportunity to enroll in a course which might easily start many on the road to a new life work will be given when Pennsylvania State college and Carnegie Tech, through Westminster college, offer free courses here in engineering defense training, starting Thursday, June 18.

Registration will take place at Senior high school tonight and Tuesday evening between 7 and 9:30.

The engineering, science, and management defense training program, as it is designted, under sponsorship of the United States Office of Education, trains men and women for technical jobs in war industry, that, under ordinary conditions, it would be practically impossible for them to get into.

Not only tuition-free, the instruction is of college level and trains students for specific industrial jobs. As the armed services are being built up to great proportions, more and more women are needed to release men workers. In peacetime, women would probably not be considered for many of the jobs now vacant.

Six courses will be offered at the local center and classes will be held two evenings a week, three and a half hours an evening for 16 weeks. Certificates will be awarded students who have satisfactorily completed their studies.

Two Meetings Of Air Raid Wardens

There will be a meeting of air raid wardens of the Third precinct, Second ward, at the Park avenue fire department tonight. Air raid wardens of the Fifth precinct, Third ward, will also meet tonight in the Vine street fire department.

Tuesday meetings follow: At 7 p. m., Fourth ward prospective wardens at Ben Franklin school.

At 8 p. m., Seventh precinct, Second ward, Arthur McGill school; Tenth precinct, Second ward, Arthur McGill school; Second and Third precincts, Fifth ward, Lincoln-Garfield school; Second precinct, Sixth ward, Union brewery; First, Second and Third precincts, Third ward, Courthouse.

CORPORAL DOOLAN RETURNS

Plan East Brook Camping Periods

Y. W. C. A. Camping Season To Open Tuesday, June 23, For Girls 8 To 12

Registrations are coming in daily for the Y. W. C. A. camp at East Brook, located five miles northeast of New Castle on the East Brook-Harbor road. Ideally situated on a hill top, it overlooks a tree filled valley and includes thirteen acres of wooded and cleared land for outdoor activities.

At the base of the hill is a large cement swimming pool, partially sheltered from the hot sun by a wild cherry tree and many sumac bushes of the non-poisonous kind.

The buildings, built in style of colonial architecture are attractive and include the dining room and recreation hall, the dormitory and the cottage. The cottage, the original farm house, is plastered, and with its charming stone fireplace makes an appropriate and comfort setting for the library and crafts shop.

There is no better run camp than Camp East Brook. A great deal of careful planning and thinking and study goes into the camp setup, in the engaging of counsellors, in camp program, in understanding the individual campers, and in planning meals. The policy of the camp committees has been to employ only senior counsellors, that is, girls who have at least graduated from college and who, preferably, have had teaching experience. There is much for a counsellor to know besides teaching her particular skill. She, too, must be able to fit into all kinds of situations and to interpret all kinds of reactions.

The meals at Camp Esta Brook are highlights in each day's schedule. Carefully planned by a dietitian, they include, not an overabundance of starches like potatoes and maracori and beans, but fresh vegetables at least one a day and salads and fruits. There is milk three times a day and again before retiring.

The activities include all kinds of games and sports, badminton, volley ball, hikes, treasure hunts, campfires, swimming twice a day, singing, dramatics and many others.

The season opens Tuesday, June 23, and continues for six weeks or until August 1. The three periods are divided according to age groups and are as follows: June 23 to July 4, 8 to 12 years; July 7 to July 18, 9 to 13 years; July 21 to August 1, 12 to 18 years.

All application for camp are accepted in the order in which the registration fee is paid, at which time a girl will receive her medical examination blank to filled in by a physician.

Home Afire, Pittsburgh Housewife Sups Coffee, Telephones

(International News Service)

PITTSBURGH, June 15.—Mrs. Pat Dunlap of Pittsburgh was quite calm when she answered the telephone and said:

"Yes, there's a fire around here, in this house, in fact. The fire's still burning and firemen are up on the third floor now."

The voice on the other end of the wire, quite excited, gasped: "Lady, if your house is burning, what are you doing in it."

And Mrs. Dunlap, quite calmly, answered: "I'm having a cup of coffee."

Firemen said the blaze was of unknown origin and that damage totaled $100.

Official's Death Adds To Mystery In Rail Wreck

Official Dies From Gun Shot

Eight Persons Are Dead As Result Of Wreck In North Carolina

FREIGHT RAMS INTO FAST TRAIN

(International News Service)

HENDERSON, N. C., June 15.—Mystery surrounding the death of a railroad official hung heavy today over the investigation into the crash of a freight train into the Seaboard railroad's proud streamliner, Silver Meteor, on which eight passengers were killed and several were injured.

About 1 a. m., yesterday, the freight rammed into the rear observation car of the streamliner at Kittrell, a small village seven miles south of here where the New York-Miami passenger express had stopped for a train order.

At Raleigh, 35 miles from the scene, the body of H. M. Terrell, 56, a division superintendent of the line, was found in the division yard. Police said he died of a bullet wound in the mouth, apparently inflicted about three hours after the crash. A pistol lay near the body.

Withhold Comment

Road officials and police withheld comment as to whether a connection existed between the crash and the shooting.

Damage to the streamliner largely was confined to the last car, which was telescoped by the freight engine. Some passengers seeing the freight loom up out of the darkness and realizing it was on their track, escaped to the next car.

But five were killed, either by the crash or escaping steam from the locomotive which plowed halfway through the car, and three others died later at Henderson hospital.

Death List

The dead were listed as:

Thomas E. Carley Jr., Rutherford, N. J.

Paul Kishman of Brooklyn, a soldier.

John Service, Ruhterford, N. J., a soldier.

Walter R. Rau, 46, Baltimore, Md.

Miss Edna Warneck, Baltimore.

John V. Sullivan, Fairview, Mass.

Ruth Schuler, Long Island, N. Y.

Barbara Uzmann, Long Island, N. Y. (Identification tentative).

New Castle Moose Well Represented At State Meeting

Governor W. L. Ringer Accompanied To Convention By Large Turnout

Over 100 members of New Castle Lodge, No. 51, Loyal Order of Moose, attended the state convention in Warren, Pa., over the weekend. The New Castle lodge was represented by Governor Walter L. Ringer and 14 delegates. Ringer was elected president of District Five for the coming year, having served as secretary and treasurer for the past year. Charles McCarthy, of Sharon, was elected secretary and treasurer, succeeding Ringer. District Five is comprised of Lawrence, Mercer, Beaver and Butler counties.

New Castle Lodge won third prize for their float and for the number of men in line of march in the parade.

This was the sixth annual convention and was the largest in point of attendance. The national convention will take place in Mooseheart, Ill., this year. There will be no parade, and only one delegate will attend from each lodge, due to the war emergency.

To Release Flow of
LIVER BILE
Normally about a quart of digestion-aiding bile should be discharged into the intestines every 24 hours. A scanty flow—a slowing-up may cause sick headaches, bowel sluggishness and so-called bilious indigestion with its "half-sick," sour depressed feeling.
If you suffer from such symptoms because you need more bile released from the gall-bladder, try world famous Kruschen Salts. Get a bottle tonight—start right in tomorrow morning and take as much as will lie on a dime in a glass of water (hot or cold) half an hour before breakfast, or in your morning cup of tea or coffee, and keep it up for 30 days, don't miss a morning and note the results for yourself. You can get Kruschen, a famous English formula made in the U.S.A., at Eckerd's of New Castle, or any drug store. You must be satisfied or money back.
CONSTIPATION SUFFERERS Note: For an occasional cathartic or purgative to relieve common constipation, we believe there is nothing better than quick-acting Kruschen in larger doses—try it according to directions on the bottle.

New Sinking Raises Ship Toll To 265

Small Dutch Vessel Latest U-Boat Victim, Navy Reveals

(International News Service)

AN EAST COAST PORT, June 15.—The Atlantic shipping toll of United Nations and neutral vessels rose to 265 today with the announcement of the torpedo-shell sinking of a small Dutch merchant ship.

The Dutch ship was sent to the bottom by an enemy submarine last week. The 29 survivors who were landed at this east coast port said that two crew members were killed and four others are missing.

Captain Barteld Van Dijk, master of the ill-fated vessel, said his gun crew opened fir on the U-boat when the German undersea raider fired a flare high into the sky. The submarine retaliated with shells which set the ship afire.

Th sinking was announced by the Navy last night.

It is estimated that the American public gives $5,000,000 annually to Pullman porters.

LOANS
$50 FOR $448 (TOTAL COST)
$100 FOR $890 (TOTAL COST)
When repaid in 6 monthly instalments

WOULD a cash loan help you this month? If you have a job, you can borrow without fuss or bother—at reasonable cost and repay your loan in monthly instalments.

Do just this

All you do to apply for a Household Finance loan is to tell us how much you need and how you wish to repay.

Loans are made in three different ways. 1. On your personal note. No security is required. Note loans are made, under proper conditions, to both single persons and married couples. 2. On your car. This plan may suit you best. 3. On your furniture. Many people prefer this plan. When making car and furniture loans, we consider character and income far more important than the value of your security. We will make your loan the way which best suits your own situation.

You may choose the most convenient payment plan from the table below. Suppose you borrow $100. Twelve instalments of $9.75 each will repay the loan in full. You may prefer to repay sooner. Six monthly instalments of $18.15 each will also repay a $100 loan. The cost of your loan, in this case, is just $8.90.

You need no endorsers or guarantors to borrow at Household. This spares you the embarrassment of asking friends or fellow-workers to sign the loan papers with you. And at no time do we question friends or relatives about your credit.

Get your loan for less

Payments in the table include charges of 2½% per month on a loan balance of $100 or less and 2% per month on that part of a balance in excess of $100. The Small Loan Law permits us to charge substantially more than this. We publish our costs and payments to help you compare rates before you borrow.

If you can make good use of a loan, see us or telephone today.

WE GUARANTEE the total amount figured by using this table to be the full amount you will pay, when payments are made on schedule. You will pay less if you pay your loan ahead of time since you pay charges only for the actual time you have the money. Payments include charges at Household's rate of 2½% per month on that part of a balance not exceeding $100 and 2% per month on that part of a balance in excess of $100. This rate is less than the maximum permitted by the Small Loan Law.

Traffic To Halt During Air Raids

Only Emergency Movements Allowed; Others Must Take Shelter

(International News Service)

HARRISBURG, June 15.—Only emergency workers and vehicles may move outdoors during an air raid or drill, while all other persons must take shelter and ordinary traffic must be halted, the State Council of Defense today decreed.

Acting under the authority of the air raid precautions act passed by the legislature, the defense council issued a formal rule embodying these restrictions and conferring upon auxiliary police and air wardens the powers of regular peace officers.

Any person violating these regulations or refusing to obey the orders of auxiliary police and air raid wardens is subject to a $200 fine and 90 days imprisonment. The defense officials have police power only when they are on active duty and display an authorized identifying badge, the defense council emphasized.

For blackout periods in which no air raid signal is given, the council directed that traffic will be permitted if equipped with approved blackout lighting equipment. The speed, however, is limited to 20 miles an hour.

Emergency vehicles will be permitted to move during an air raid or drill only if equipped with markings and blackout lighting equipment approved by the defense council. Since such lighting equipment is not yet available, an exception will be made for the statewide dusk-to-dawn blackouts of June 23, 24 and 25, the equipment being that emergency vehicle lights be merely dimmed during the half-hour blackout.

The new rule was the second adopted by the defense council under the 1942 enacted law. The first rule defined the duties and authority of county defense councils.

Rename Hughes State Motor Head

(International News Service)

WILKES-BARRE, Pa., June 15.—Judge Howard Hughes of Washington county today was re-elected president of the Pennsylvania Motor Federation at the close of the organization's 36th annual convention in Wilkes-Barre.

J. H. Dunn, Uniontown; Will Fox, Pine Grove; John Giles, Reading; John Rickwell, Waynesboro; F. E. Ballantyne, Philadelphia; P. C. Bauschard, Erie, and Thomas Murphy, Scranton, were elected vice presidents.

B. N. Hanlon, secretary-manager of the New Castle Motor club, attended the convention as the representative of the local club.

Little-Mangrum Post New Record

Pair Rings Up Plus 14 In Grabbing Golf Honors In Inverness Tourney

(International News Service)

TOLEDO, O., June 15.—A new record of plus 14 was posted in the Inverness club house today as Lawson Little, 1940 National Open champion, and his partner Lloyd Mangrum, walked off with the major share of $7,650 in cash and war bonds for the eighth annual Invitational tournament.

Henry Picard and Sam Byrd finished second with plus eight, normally a decent count, but this time far behind the leaders of the best-ball play.

Little and Mangrum, in addition to the first prize of $2,150, pocketed $125 for their 42 birdies in the 126-hole round and $83 as their one-third split of the best-ball score, deadlocked at 62.

Picard and Byrd went from fifth to second place in the standings as they defeated Jimmy Hines and Herman Barron nine up in the final round, the most lop-sided score of the tourney.

Tailing the leaders, Herman Keiser and Chandler Harper wound up in third; Jimmy Demaret-Ben Hogan, defending champions, tied for fourth with host pro Byron Nelson and Jimmy Thomson; Dutch Harrison-Denny Shute, sixth; Horton Smith-Chick Harbert, seventh; and Jimmy Hines-Herman Barron, last.

FRESHMAN GETS AROUND

NEW YORK—Harry Feldman is a freshman right-hand pitcher of the New York native. When you get past those 2 facts, however, Harry's life story ranges all over the map. He worked last winter in a San Diego, Cal., air-plane factory. Winter before, he was mail clerk in the Ft. Smith, Ark., post office. Still further back in his biography his father was born in Roumania and his mother in Poland.

NOT HALF BAD

Hal Turpin, 35-year-old pitcher of Seattle, not only pitched this year's first no-hit game, but he won five games in his first month.

Buccos-Giants Split; Red Sox, Cards Nab Pair

Pirates' Seven Game Streak Cracked; Frischmen Rope Finale, 8-3

BRAVES, ED. SMITH ON WINNING SIDE

(International News Service)

NEW YORK, June 15.—Only four clubs faced action today and tonight as the eastern teams in the American league swung west and western teams in the National league reversed the travel schedule. Both games will be played in the National, the New York Giants engaging Pittsburgh this afternoon before returning home and the Brooklyn Dodgers taking Chicago tonight before doing likewise.

The St. Louis Cardinals slashed one game off Brooklyn's 6½-game lead in the National wheel yesterday by whipping the lowly Philadelphia Phils twice as all teams in both leagues played twin bills. The Cards, behind five-hit pitching by Lon Warneke, won the opener, 9 to 1. Howie Krist, hurling the ninth of the nightcap, was credited with the 6 to 5 victory, his third this season and his 13th in a row taking in last year.

Fly-chaser Ducky Medwick ran his hitting streak to 18 games as the Brooklyn Dodgers trounced the Cincinnati Reds, 4 to 1, with the Reds reversing the decision by a 2 to 1 margin in the finale. Dolf Camilli provided Whitlow Wyatt with the winning margin in the first game by following up singles by Pete Reiser and Medwick in the eighth with his ninth home run of the campaign. The Reds halted Curt Davis' five-game winning streak in taking the second contest.

Braves Finally Win

Boston snapped its 12-game losing streak by taking the night-cap from the Chicago, 10 to 1, after losing the opener, 8 to 6. Schnoz Lombardi, Braves catcher, suffered a split of the index finger of his right hand in the opener and Stan Hack, Cub third baseman, aggregated a rib injury in the second joust.

The New York Giants knifed the Pittsburgh Pirates' seven-game winning skein with a 4 to 3 victory in the first game, then lost the second to the Frischmen, 8 to 3.

In the American league, Red Ruffing won the 251st victory of his major league career and his seventh of the season by pitching the New York Yankees to a 6 to 1 win over the St. Louis Browns. Ernie Bonham came right back with his ninth win of the year, beating the Browns, 5 to 4, in the second contest. Joe Gordon failed to hit for Bonham, thus ending his hitting spree at 29 games.

Boston stretched its winning streak to eight straight with 3 to 2 and 2 to 1 victories over the Detroit Tigers. The twin wins closed Boston's stay at home, they open Tuesday in St. Louis on their western swing, with 11 wins out of 14 games.

Al Smith scattered ten Philadelphia hits in the first game to give Cleveland an 8 to 3 victory over the Athletics. The Mackmen came back to win the nightcap, 5 to 1, with Lum Harris allowing only three hits.

Chicago took both ends of a doubleheader from Washington, 9 to 3 and 11 to 4. Ted Lyons scored his 249th major league victory in winning the opener and Edgar Smith scored his first victory after ten straight defeats by capturing the finale.

Three Softball Games Tonight

Three games will be played in the City Softball league tonight, Secretary "Gabby" Kendra announced.

The games pair:

McClellands vs. Castles, Clifton Flats.

Columbus vs. Standard Spring, Gaston Park.

Victory vs. N. Y. A. Cunningham park.

Games Wednesday

Columbus vs. Castles, Clifton Flats.

McClellands vs. N. Y. A., Cunningham park.

Standard Springs vs. Victory, Gaston park.

Thompson Is Still State Skeet Champ

(International News Service)

LANCASTER, Pa., June 15.—Scoring 95 out of a possible 100, W. F. Thompson, of Boothwyn, today had successfully defended his 410 gauge championship in state skeet shooting.

A. V. Zugates, of Indiana, and Miss Harriet Behrend, of Erie, were tied for runnerup with 92s. Thompson also retained the 20 guage championship.

Thompson and J. A. LaFore, of Merion, were two-man team winners in the 20 guage event, scoring 193 out of a possible 200.

ROCKETS-WEST SIDE

Tonight on George Washington junior high field, the Rockets and West Side A. C. clash in a loop fray. The mound duties will likely be turned over to Hughes of the Rockets and Melchoir or Schaas of the sixth warders. The game starts at 6:30 o'clock.

The standing, as announced by Secretary Nick Lucas, follows:

	W.	L.	Pct.
Dewey	10	2	.833
Wampum	7	2	.777
South Hills	7	3	.700
West Side	5	7	.416
Rockets	5	7	.415
Keystones	3	7	.300
St. Margarets	0	11	.000

GAMES TODAY

West Side vs Rockets, Washington.

Wampum vs South Hills, South Hills.

Another important meeting will be held on Tuesday evening at 9 o'clock at Carm's, 112 West Washington street, it was announced.

SPORTS WORLD RAMBLINGS

Monday sports reel:

As we glanced on the avenue below, trying to dope out a few paragraphs for today's column, Paul McCullough was strolling by. While watching the strappling "Mac" walk up the street, we got to thinking about some of the local baseballers who have been on the active list for close to a quarter of a century.

Paul is one of the select members of the circle. Past the 40-year-old mark, "Mac" still manages to slip the horsehide past youngsters who are determined to slap the apple a mile away. The right-hander, who has traveled along every lane in the game, from county league to American Association, the majors and now back to the so-called bushes, takes his turn on the knoll with a Youngstown team.

Daddy of 'em all is Frank "Jewie" Coen. The bespectacled local game waren can't keep away from the game. Coen's chief interest is the Elder A. C. which today ranks as the "it" diamond club of the city. "Jewie," who has hurled in parks throughout the nation, helps to coach, manage, warm-up and figure out the strategy for the solidly organized Elders. Coen, who won't see the 40-year mark again, is listed as the Elders' July 4 pitcher.

His hair sprinkled with gray, George Byak, the veteran outfielder, has a place in this category. The south sider, who shags flies for the Elders, is about 37 and has been active in baseball for nearly 25 years. At one time, Byak ranked as one of the hottest prospects ever turned out here. At the plate, George always has been listed as one of the most feared stickers. Byak went as far as the Middle-Atlantic circuit.

Private "Jiggers" Fonzeno, stationed in the south, is home on furlough. The south sider, among the most devoted local sports followers, is a knockout in uniform. . . . Nickie Gennock of the United States Coast Guard has returned to Curtis Bay, Maryland, following a furlough. A top ranking all-around athlete, Nick is starring in baseball.

There are only 16 left-handed pitchers listed in the American league. The Indians lead the field with four—Dean, Eisenstat, Milnar and Al Smith. . . . Heber "Dick" Newsome, the Boston Red Sox's 31-year-old righthander, counted seven of his 19 victories in 1941 at the expense of the Chicago White Sox.

Matty Bell, Southern Methodist's great coach, now is a lieutenant commander in the U. S. Naval Reserve. . . . Since January 1, 1940, Ben Hogan has won over $40,000 in golf. . . . Not that it makes any difference but baseball has been played on the site of Sportsman's Park, St. Louis, for over 75 years.

WEEK-END SHORTS

NEW YORK, June 15.—Doublerab grabbed the Aqueduct Carter handicap Saturday, defeating Whirlaway. Swing and Sway was second and Whirly came in third. The winner paid $19.40 for $2.

BOSTON, June 15.—Valdina Orphan finished first in the Constitution handicap at Suffolk Downs, Saturday. A-One was second and Irresistible finished third.

LINCOLN, Neb., June 15.—The highly favored Southern California aggregation gained its eighth consecutive N. C. A. A. track and field championship Saturday at the U. of Nebraska track.

Ohio State grabbed second place with 44 points compared to 85½ for the Trojans. California was third with 30 2-3 markers.

STANTON, Del., June 15.—Lochinvar dashed up five lengths ahead of the field Saturday in the Kent handicap at Delaware Park. The prize was $10,000 added. Grey Wing and Air Current grabbed place and show slots, respectively.

Joe Louis, Feller In Gigantic Show For Relief Funds

Warmerdam, Oliver And Vic Ghezzi Participate In New York Carnival Sunday

(International News Service)

NEW YORK, June 13.—Final check was being made today on the amount of money the Army and Navy relief societies will receive from yesterday's all-sports carnival at the Polo Grounds. A crowd of 12,648 watched Joe Louis through his boxing paces, Bobby Feller limit an Army baseball team to three hits to give his Navy mates a 4 to 0 victory in an abbreviated five-inning exhibition game and Cornelius Warmerdam climb high on a vaulting pole.

All proceeds went to the service organizations and the performances by leading athletic stars were supplemented by acts contributed by members of the stage and radio worlds. Louis, the heavyweight champion, sparred four rounds with George Nicholson. Warmerdam vaulted 14 feet 8 inches compared with his record leap of 15 feet 7¼ inches, and Corporals Ed Oliver and Vic Ghezzi gave an exhibition of accuracy in a golf pitching contest.

Jim Herbert won the quarter-mile run by half a yard from Joe Nowicki. Johnny Borican beat Don Burnham by a step in the half-mile event. The bands of Fred Warring and Tommy Dorsey blared at one another and Al Schacht put on his clowning baseball act.

TENNIS QUEEN

(International News Service)

PHILADELPHIA, June 15.—Hope Knowles today was Pennsylvania and Eastern States' Grass Court Singles Tennis champion, after defeating Mrs. Helen Rihbany, of New York, in the 42nd annual championship final 3-6, 8-6, 6-0, at Merion Cricket club.

HOLDS NOT BARRED

Lieutenant Jim McMillen of the Navy, former wrestler, speaking to Navy recruits in training at the Chicago Navy Pier: "We must realize that in war no holds are barred." He forthwith began to show the new men all the tricks of the trade.

Dory Gunnett Hurls No-Hit No-Run Game; Croton Loses Twice

West Pittsburg, Bessemer Win, Share First Place; Slovaks Cop, 8-2

THREE MORE TIFFS ON CAR DTONIGHT

Out of Sunday's exciting City Baseball league skirmishes emerged the name of one of Lawrence county's most liked sandlotters—Dory Gunnett.

The "Big Train" opened the door leading into the mythical hall of fame chamber by twirling a seven-inning no-hit no-run game for the Elder A. C. In calcimining the strong Croton A. C., 4-0, the popular flinger gave up only there bases on balls.

Gunnett's gem was the first of a series of features in yesterday's round. Inspired by the no-hit performance, the Elders came back fighting mad, spilling Croton in the day's finale, 1-0, to remove the Colaluca-piloted team from first place.

On other fronts, West Pittsburg moved into a tie for the top post by jarring the Lawrence Indies, 5-1. Bessemer kept time with the "Gashouse Gang" by blanking the Moose, 3-0, and the Slovaks fattened their winning list by larruping the West Side Tigers, 8-2.

W. PITTSBURG WINS, 5-1

West Pittsburg's pennant-minded sandlotters paraded further in the title lane by whaling the Lawrence Indies, 5-1, on West Pittsburg field.

The triumph zoomed the "Gashouse Gang" into a tie with Bessemer for the uppermost spot. Tonsetic, James Marky and Kessler led the winners' attack, each garnering two hits. Mosley singled twice for the losers.

"CEMENTERS" KEEP PACE

The Moose's championship dreams received a jar on Marshall field, where the Bessemer clubbers pasted a 3-0 loss on the Rodenbaugh aggregation.

B winning while Croton was losing a pair, the "Cementers" edied themselves into a tie for first place with eight wins against five setbacks. While his mates were collecting seven hits off Rainey, Stanley turned in a four-hitter for the winners.

Haun, Johnson, Caldararo and Stanley rapped doubles.

CROTON IN THIRD

As if his pitching wasn't enough, Gunnett further electrified the Cascade field gallery by collecting two hits, one a double, to send Croton down into the third place slot, tied with the Elders.

Another veteran, George Byak, helped Gunnett's cause with a double and a single. In the nightcap, Strausbaugh and Andy Sugent got tangled in one of those tooth and nail twirling battles. The Elders pushed across a marker in the sixth to win, 1-0. Strausbaugh, who first bases for the Scott streeters, yielded two hits while Sugent spread seven singles.

D. Robinson rang up the only two hits registered against the tall Elder star. Gibson tapped out two safeties for the winners.

SLOVAKS WIN EASILY

Taking advantage of four miscues and placing a half dozen hits in the right spot, the Slovaks remained in the fight for the first half toga by slapping another loss on the tail end West Side Tigers, 8-2, on Lee avenue field.

The Slovaks spotted the Tigers two runs in the opening inning. The Slovaks knotted the count by the third and then cakewalked home. Majeski starred for the winners, Biddle, Kearns and DelPrince highlighted the attack for the losing nine.

LEAGUE CHATTER

Three important clashes will be played tonight, President Mike Donovan announced.

The West Pittsburg nine jeopardizes its first place hold by meeting a rough Slovak aggregation. The setto, carded to start at 6:15 o'clock, will be played on Cedar street grounds.

Croton endeavors to keep in the title scramble by rapping the West Side Tigers on Lee avenue field, and the Lawrence Indies and Elders swing on Marshall field, Scott street. The Elders can keep abreast of the leaders by copping.

Umpires assigned for Tuesday's games:

Moose-Elders, Price and Rotunno.

W. Pittsburg-West Side, Gormeal and Morgan.

Croton-Bessemer, McIntyre and Irwin.

Slovaks-Indies, General and Tex Richards.

An important meeting will be held in the Y.M.C.A. on Wednesday night at 8:30 o'clock, President Donovan stated. Managers and officials are urged to be present.

Dempsey Is Given Lieutenant's Rank

Ex-champ Will Teach Boxing, Wrestling, Jiu Jitsu And Use Of Knives

(International News Service)

NEW YORK, June 15.—Jack Dempsey, former world's heavyweight champion, has been sworn in as a lieutenant in the coast guard preparatory to teaching recruits the rough and tumble type of fighting.

"The Japs taught us a lesson at Pearl Harbor," he said. "That's why we'll forget the Marquis of Queensberry rules."

Dempsey took the oath from Capt. R. W. Dempwolf, senior officer in the coast guard, at the U. S. custom house. The one-time champion said he had resigned from the New York state guard because he figured he'd get more active service in the coast guard.

Next Tuesday Dempsey will begin his duties in charge of physical training at the Manhattan Beach training station. His program will include boxing, wrestling, jiu jitsu and the use of knives.

Capt. Dempwolf expressed satisfaction at obtaining the services of Dempsey.

"The army has Joe Louis, the navy has Gene Tunney and now the coast guard has Jack Dempsey," he said. "We're all set now."

Golf Dinner At Sylvan Heights Attracts Throng

Sylvan Heights golfers and their friends, numbering over a hundred, enjoyed the first social event of the season on Saturday evening in the form of a steak dinner in the club house, served by Manager Sam Haycock and his wife.

Joe Smith of Ellwood City served as toastmaster and his natural and ready wit kept the program moving along, the principal speaker being Ross D. Rosenberger, who gave an interesting talk on golf and its relationship to physical fitness as an aid to defense.

Other speakers included William T. Saul, member of the advisory committee of the course; Councilman Joe Alexander, director of public parks, and Joe Platt, U. S. G. A. supervisor for western Pennyslvania.

It was announced that the West Penn Public Links tournament, originally scheduled for June, will take place on July 26, and invitations are now being sent to golfers in surrounding cities. It is expected that this year's event will be bigger and better than last year's, in spite of the war emergency.

HERE AND THERE IN SPORTS LAND

Jimmy Dunn, manager of boxers, who has been on the Pacific coast for several years, will depart for the east, Thursday, according to a letter received today. Whether or not the ex-localite intends to remain in the east the letter does not state.

There will be no boxing tonight in The Arena. However, eight battles are being scheduled for the near future. One bout will find a marine sergeant vs a serveant of the army. The former is Bill Bilpuch and the latter, Jimmy Final. Frankie Moran will also appear against a good opponent and Billy Grumbacher will get a return crack at Russell Baxter.

St. Marys is yet leading the Church golf loop. No matches were played Thursday because of the rain. The matches next Thursday will find Highland vs Trinity, St. Marys vs First U. P.; First Presbyterian vs Madonna and First Church vs Harbor U. P.

Joe Gordon's hitting streak was broken yesterday. The Yankee second baseman hit in 29 straight games....Lawson Little and Lloyd Mangrum walked away with the eighth annual $7,650 Inverness fourball matches Sunday at Toledo.

Tommy Yarosz and Ernie Pelai, Beaver Valley rivals, will box in the main bout at Beaver Falls, Friday night...Joe Gordon of the Yanks is leading the Big Six with .386 for 197 times at bat in 51 games. Doerr of the Red Sox is 11 points in the rear for five less times at bat and three less games.

Christie-Jones Engagement Told At Lovely Tea

Miss Mary Evelyn Christie Will Wed Robert W. Jones On June 27

ELLWOOD CITY, June 15—Mrs. Homer Christie entertained at a smartly appointed tea on Saturday afternoon from 2 until 5 o'clock at her home, in Wayne avenue, to announce the engagement of her daughter, Miss Mary Evelyn Christie.

Miss Christie will become the bride of Robert W. Jones, of Crescent avenue, on Saturday, June 27, with the ceremony to be performed at the Presbyterian church.

The announcement was revealed in individual corsages which were presented to each of the guests. Out-of-town guests attended from Alliance, O., Zelienople, Beaver Falls, McKeesport, and New Castle.

The home was attractively decorated with garden flowers and a lovely arrangement of flowers centered the tea table at which Mrs. Edna Jones and Mrs. Kathryn Jones presided. Other aides to the hostess were: Miss Ruth Mayne, Miss Letetia Clyde, Mrs. Amanda Kuben, Mrs. Alice Clark, Mrs. Carl Worrell and Miss Margaret Fanczalszki.

Girl Scouts Home From Week Of Camp

ELLWOOD CITY, June 15—About a huge Indian camp fire, a week of perfect camping came to a close on Saturday night for 146 Ellwood City Girl Scouts and 41 leaders at ideal Camp Kon-O-Kwee, near Fombell.

Dramatically concluding the evening, the girls went to the Connoquenessing creek bank and sailed traditional wish boats each lighted with a candle down the quiet stream. It was an unusual sight and one that will remain with the girls as one of the high-lights of the week. The clever boats were made by Mildred Stewart, Miss Pugh and Virginia Guldbransen.

A "Scouts Own" service was also held during which Mrs. John H. Hough, council president, spoke with the music being in charge of Louise Scott and Mrs. Hedberg.

Miss Bessie Burrows was director of this year's camp and she was ably assisted by a large corps of leaders in making the entire week a grand success.

Blackout Plans Are Being Made

ELLWOOD CITY, June 15—The entire local civilian defense corps will swing into action on Thursday evening, June 25, and all citizens are to obey orders in that homes are to be darkened during the partial and half hour complete blackout. If anyone wishes to have light in their home they must purchase blackout material to black out the light.

No one will know when the air raid signal will be given for the complete blackout as the signal will be flashed from the Baltimore area. The local fire siren will sound up and down for two minutes and the National Tube company and Mathews Conveyor siren will also blow for a two minute period. The all clear signal will come half an hour later. Details of the blackout affecting pedestrians and vehicular traffic will be printed Tuesday.

Four Hundred At U. P. Church Picnic

ELLWOOD CITY, June 15.—Ewing Park grove was the scene of an enjoyable gathering on Saturday afternoon and evening when 400 members of the First U. P. church assembled for the yearly Sunday school picnic.

With so many of the young people at the scout camp and Young People's convention, there was no formal sports program. Park diversions formed the entertainment.

At 6 o'clock a delectable picnic dinner was enjoyed. General arrangements were in charge of Mrs. Anna Jones, and she was assisted by committees of the various classes and the superintendent, James Brown.

Hungarian Group Dedicates Flag

Verhovay Association Has Impressive Service And Banquet On Sunday

ELLWOOD CITY, June 15.—The local Verhovay Association, Chapter 114, held an impressive flag day celebration on Sunday during which they dedicated a new American flag.

The flag was first blessed at the St. Joseph's church at Ellport by Rev. Martinobich with Burgess Clyde Houk serving as sponsor. The flag was then blessed at the Ellport Magyar Presbyterian church by the pastor, Rev. Paul Ferenczy.

A banquet followed at the Hungarian hall at 6 o'clock with the dinner being served to 120 guests under the direction of Mrs. Stephen Mondell, assisted by members of the Hungarian Woman's club. The tables were attractively decorated in red, white and blue appointments.

Rev. Ferenczy served as toastmaster with short talks being given by Burgess Clyde B. Houk; Secretary of the Chamber of Commerce R. J. Schill; supreme office, Frances Brogley, Youngstown, who presented a medal to the chapter president, John Bokor. Talks were also given by district manager, Michael Simo, and chapter member, Michael Buogany, of Alliance, O.; Stephen Miscoisze, of the Magyar church; Mr. Laselszo, of St. Joseph's church; Ignatz Gaul, president of the Hungarian club; Mrs. Julius Vaga, secretary of the Woman's club, and John Mondell, Steven Kaldy and Joe Mraz.

Open Road Class Meets At Church

ELLWOOD CITY, June 15 — On Saturday evening, members of the Open Road class of the North Sewickley Presbyterian church gathered at Ewing Park grove for a picnic supper.

Fifty members and guests attended with special guests being Mr. and Mrs. Ray Reck. Miss Bessie Smith and Miss Florence Richards.

After a tempting picnic supper, the evening was devoted to ball playing and the park diversion. The successful arrangements were in charge of Mr. and Mrs. G. P. McRussell Rader.

Another outdoor meeting will be held on Saturday, July 11.

JUNIOR SAXONS MEET SUNDAY

ELLWOOD CITY, June 15.—When the Junior Saxon Lodge met on Sunday at the Herman club, plans were made to attend a convention on Saturday and Sunday in Cleveland. Thelma Thalott and George Paul were named delegates with several other members to attend.

Sunday, June 28, another meeting will be held.

ELLWOOD PERSONALS

Christian Alles, Spring avenue, who recently underwent an operation at the Mercy hospital, Pittsburgh, is improving.

Mr. and Mrs. Albert Holsnyander of Ellport have received word that their son Albert has arrived safely with the U. S. army in Jamaica.

Mr. and Mrs. Leo Manion of Massillon, O., and Jack Hergenrother of Chewton were Sunday visitors at the home of Mrs. Maude Harper, Sixth street.

Mr. and Mrs. Nelson Wright have returned from their wedding trip to Edinboro Lake and are "at home" to their friends at the Wright residence at Wurtemburg.

Mrs. Glenn Gallaher and sons Jack and Jimmy and Lillian Weller, First avenue, are guests this week at the summer cottage of Mr. and Mrs. William DeWire at Portage Lake, near Akron, O.

William Mossrush of Slippery Rock has concluded a week's visit with his aunt, Mrs. Paul Kimmell of Knox. He graduated last week from Slippery Rock State Teachers college and will enter the army soon.

Representing the Knox Presbyterian church, Rev. L. A. Lightfritz, pastor of the Lilyville Church of God, left Sunday for Findlay, O., to attend a ministerial conference. He was accompanied by Ray Best of the Lilyville church and Aline Shields of the Mt. Union church, who will attend a youth conference at the same time. They will return home on Wednesday.

Wilda Graham, Vera Jean Smith, Frances Hazen, Jerry McDeavitt, Dorothy Desport and Gladys Ticholtz are among the local girls attending the Tri-Hi-Y camp of the western district at Erie. They will return home on Saturday. Also attending are Eveh Joyce Aiken, Loretta Wilson, Katherine Powell, Aurdey Young, Caroline Davis and Shirley Babbitt.

Mr. and Mrs. Frank Blaine, Woodside avenue, have concluded a two weeks' vacation. A part of their vacation was spent in Toronto, Canada, where they were guests of Mr. and Mrs. M. L. Brown. Mr. Brown is manager of the Selberling Rubber company, and conducted Mr. and Mrs. Blaine on a most interesting tour of the factory. They also visited the famous Casa Loma in Toronto. Mr. and Mrs. Blaine also visited with relatives in Pittsburgh and Punxsutawney and spent the week-end with the latter's parents, Mr. and Mrs. A. H. Atkinson of Callery.

FROM ME TO YOU

By MESEEALL

These who were suffering from the heat of last week surely got cooled off yesterday. In fact some were complaining about how cool it was and just the day before they were of the other opinion . . . seems that some people can't be satisfied at any time. A person who always complains about this or that must have a very poor idea of himself and those around him . . . make the best of what you have and especially the weather, there is nothing that you can do to change it . . . complain about something that you can change, if you must complain.

* * *

Yesterday, the 14th of June, was Flag Day in the United States . . . every home that could, displayed the colors. Some displayed them correctly and others were a little off . . . to some people, this will bring criticism and arguments. If you want to be sure that the flag you display is properly placed, ask your flag dealer for a book of rules . . . Today is another day for some to consider as Flag Day. The Banks are celebrating the Holiday that fell yesterday . . . Hope they all enjoyed themselves.

Here are a few dogs that the owners would like to give away . . contact at once:

Phone 4574-M . . . male dog, about 6 months old, used to children, makes a fine pet.

W. J. Murphy, 301 East street . . . fox terrier, about 8 months old, black and white.

339½ Produce street . . . black and white female dog, about 3 months old, very fond of children . . . present owners have no room for dog, call at once.

Phone 8050-R12 . . . two pups, fox terriers, females . . . must see to appreciate.

Call 3482-W for a cute little kitten . . . about 2 months old.

W. K. Conover, phone 6007 . . . 4 Persian kittens about 8 weeks old, all females. 2 grey, one black and one light yellow.

We haven't mentioned this for a while but it is worthy of your consideration. The G. N. C. A. is worthy of your membership. They have been doing some mighty fine work the past few months but they need financial aid as do all organizations doing such work . . . Therefore we ask you again to consider a membership in the organization that will help and has helped you more than any other such organization in this community. Stop in at the G. N. C. A. office in the Castleton Hotel and ask for a membership blank . . . all people are invited to join.

tive. The present temporary program was to have ended June 30.

The Price Administration warned, however, that if holders of "A" or "B" ration cards have used up all their units, they will not be entitled to additional supplies unless they can show real need.

Registration of motorists along the Atlantic seaboard for the new books will be held July 1, 2 and 3.

Urges "Synthetic" Action

As the rubber drive began, Sen. Butler (R) Neb., appealed to President Roosevelt "to break the War Production Board bottleneck that prevents use of farm products for immediate production of the rubber we must have."

Butler said that the present synthetic rubber program, based largely on the petroleum process, will not make available any substantial quantity of tires before 1944 at the earliest while plants using alcohol from grain could be turning out rubber nine months from now if they could get the "go-ahead" signal from the WPB.

The nation-wide scrap rubber campaign was opened by the office for emergency management urging women to ransack the attic, cellar, garage and even the nursery for its quota of baby pants, crib pads, bibs, nipples, pasifiers, teething rings and toys.

"No bit of rubber is too small, too worn, too old to enlist in this drive," the OEM said.

return to their bases and landed on neutral soil for internment rather than be captured in Axis territory.)

The total number of bombers which landed in Turkey has been variously reported at four and as high as seven. The craft were Consolidated and Douglas bombers, the report said.

Some of the 21 men were said to have been slightly injured.

All bomb racks of the planes reportedly were empty when they landed, indicating they had succeeded in carrying out their mission.

STOCKS

Stock Market Trend Is Mixed

Minor Gains And Losses Are About Evenly Divided Today

(International News Service)

NEW YORK, June 15.—The stock market settled into a mixed and colorless price range today. Minor gains and losses were evenly divided throughout pivotal groups, and many leaders held at Saturday's closing levels.

A few scattered stocks showed notable price changes. Philip Morris ran up 1⅛ to 72½. United Airlines moved up a half-point to its 1942 peak of 11⅞. Lone Star Cement, meanwhile, slipped 1¼ to a new low of 32½.

Fractional improvement was recorded by U. S. Steel, General Motors, Goodrich, Union Carbide, American Smelting, Kennecott, Anaconda, International Harvester, Standard Oil of N. J., Union Pacific Borden and National Biscuit.

Easier tendencies were displayed by Chrysler, Sears Roebuck, Montgomery Ward, American Telephone, Du Pont, Boeing, General Electric, Pennsylvania R. R., and Consolidated Edison.

INVEST IN VICTORY!

Our boys can take the War to the enemy, if we back them up with ships and tanks and guns! But that takes money!

Help your Government to put the tools of war into the hands of our soldiers by purchasing War Savings Bonds and Stamps. And remember . . . just one Bond can't lick the Axis any more than just one gun! It takes millions of Americans buying War Savings Bonds and Stamps every pay day!

Bonds cost $18.75 and up . . . and they pay you back one-third more in only 10 years! Stamps cost 10¢, 25¢, and up . . . soon total the price of a Bond if bought regularly.

Help our boys on the fighting fronts wherever they may be! Buy War Savings Bonds as an investment for yourself and your country.

NAZIS USE HALF MILLION MEN IN KHARKOV DRIVE

(Continued from Page One)

spite a tremendous offensive that included tanks, planes, artillery and infantry, were being "repelled".

The Communist party newspaper Pravda reported that fighting at Sevastopol was increasing in violence. The Germans are throwing in fresh forces continually, the paper said, while Soviet air attacks are inflicting heaviest losses.

(Editor's Note: Reuter's (British) news agency reported in a Stockholm dispatch that the entire able-bodied population of Sevastopol has been armed against Nazi parachute attacks.)

Belief was expressed in Moscow that so long as Sevastopol was able to withstand the hammering by the German 11th army, commanded by Gen. Fritz von Mannstein, the Germans would not succeed in blasting their way through the red defenses east of Kharkov.

Kharkov Battle Rages

The Kharkov battle has raged through five days and nights of savage fighting. In the last two days alone, 2,850 of Von Bock's men have been lost as the Russians traded blow for blow in a battle that already has been described as one of the major conflicts of this war.

German losses at Sevastopol, according to unofficial advices from the beleaguered city, totalled 5,500 men in two days.

Men, women and even boys were taking part in Sevastopol's defense, as the Germans attacked fortifications shielding the city with every available bit of powder.

Yet, despite gigantic efforts of the attackers, who used planes, monster tanks and artillery to back up their infantry, last official word from Sevastopol was that the Soviets had "repelled all attacks".

Gen. Fritz von Mannstein, in command of the 11th German army, was reported to have driven a wedge in one sector of the city's defenses, through which the Nazis were said to be pouring troops in an effort to smash into the base.

To the north, meanwhile, 400 miles away on the Kharkov front where another German offensive got under way last week, red forces under Marshal Semyon Timoshenko continued to hold their own.

The midnight Soviet communique, reporting that the Nazis were pressing their attacks with tanks and infantry, declared that the Russians inflicted "great losses on large forces of the enemy".

Luftwaffe at Murmansk

As the Germans threw fresh men into the vital battles of the Kharkov front and Sevastopol, the Luftwaffe turned its attention on Murmansk, big Russian port where many United Nations convoys unload.

Five times, the Soviets announced officially, the Nazis tried to raid Murmansk to knock out this strategic port, but so skilled were the city's defenses that only a few planes broke through.

Eight German planes were shot down. The Russians conceded there were some civilian casualties, but said no military objectives suffered from the savage Nazi attempts to wreck the port.

But it was from the Sevastopol area that the grimmest stories of total war came.

There was hand to hand fighting there, frontline advices declared, as red soldiers passed along the word: "Not an inch."

The Russians were fighting from trenches outside the city, using the cold steel of bayonets in many instances against the attacking Germans.

A plain north of Sevastopol was the scene of the most furious fighting.

One piece of red stratefy that came to light was in permitting a wave of Germans to pass over the trenches, then launch counter attacks from the rear. Hundreds of Nazis died in these bloody man-to-man fights.

Powell and Oppert were accused of supplying information to an unnamed foreign power, a Berlin broadcast of the Shanghai Dispatch said.

STOCKHOLM, June 15.—German Stuka dive-bombers are conducting incessant attacks against Sevastopol in an effort to blast the Soviet naval base into submission, reports reaching Stockholm said today.

The Nazis claim "absolute mastery of the air around Sevastopol," one dispatch said.

Other reports said that Russian planes based somewhere in the Caucasus are defending the fortress as well as planes from the aircraft carrier Stalin operating somewhere in the Black sea.

SAN FRANCISCO, June 15.—Tokyo has finally admitted huge losses in the Midway naval and air battle, the Melbourne radio declared today.

The broadcast, heard by the CBS shortwave listening station, stated: "Tokyo radio has at last admitted that the Japanese losses in the Pacific have been heavy. One broadcast said that the losses were the heaviest since the beginning of the war."

LONDON, June 15.—Squadron Leader "Lucky" Cooper of St. Petersburg, Fla., of the Royal Air Force bombed and sank two enemy supply vessels off the Dutch Coast, the air ministry announced today.

Cooper was not further identified.

Four Men Enlist For Army Service

One local man and three from the district enlisted in the United States army today, announced Sergeant John T. Bilpuch, of the local recruiting office, in the post office. The local man is John L. Worrell, son of Mr. and Mrs. Floyd G. Worrell, R. D. No. 1, New Castle. Worrell enlisted in the air corps.

The other enlistees are Raymond Korzec, box 152, Rigby; Clark F. Steese, R. D. No. 3, Volant, and William W. Magnotto, 511 Haywood street, Farrell.

Sergeant Bilpuch announced that these enlistments give the local recruiting office an average of two men a day for the first 15 days of June. Twenty-nine men have joined the army so far this month, he said.

But a conquered Germany can't be left unguarded till the lies are removed from the warped minds of the Nazi generation.

Birds Save Trees By Fighting Bugs

Woodpeckers, Orioles, Chickadees, And Cuckoos War With Insects Always

(Special To The News)

HARRISBURG, June 15 — The total damage to trees by insect pests each year is enormous and were it not for the assistance given by birds, the control of insects in many instances would be impossible, Chas. E. Baer, deputy secretary of the Department of Forests and Waters, said today.

Birds are the health officers of our forests and many of them are not born in trees but spend a great part of their time there. They obtain most of their food from the trees in the form of insect life that inhabits the bark, branches, fruit and foliage. Whether the food of birds consist of insect or plant life the result of maintaining the balance of nature may be equally beneficial.

It has been found that caterpillars form more than one-third of the food supply of the Baltimore oriole and that in some instances entire local infestations of ten caterpillars have been destroyed by orioles.

Woodpeckers help because of their ability to cut through the bark and into the wood after insect enemies. Among the birds that seen their food in small branches are the chickadee and kinglet, who feed upon insect eggs and smaller insect life. The oven bird feeds mostly on ground insects. Cuckoos and warblers eat the larvae and sucking insects that destroy the leaves of the trees.

Birds are a most valuable aid in scattering tree seed. Frequent occurrence of red cedar along the fence rows of our farms is attributed to bird distribution. The black berry, one of our most valuable trees in Pennsylvania, is planted extensively by the flocker. The bluejay stores acorns similar to squirrels, but putting in the ground, where they are left to germinate.

WPB estimates that between 40 and 50 million pounds of wool will be saved by cutting the cuffs from men's and boys' trousers and other changes in war tailoring.

Pressed wood hardboards are replacing aluminum and non-ferrous alloys in the manufacture of fan blades, gears, grills and motor housings.

Like begets like, yet the writer who limits himself to criticism wonders why people write him only to criticize.

Scout Camp Gets New Name Shortly

Rededication June 20 To Close Camporee; Drop Phillips Name

Camp John M. Phillips of the Boy Scouts will become the "Lawrence County Boy Scout Camp" in fitting rededication ceremonies following the June 19-20 camporee on the camp grounds, it was announced today.

County scout leaders explained that the new name more appropriately represents the youth of the county. When the camp was opened it was named in honor of Mr. Phillips, one of Pennsylvania's outstanding sportsmen.

The camporee event will draw boys from all over the county, filling all of Friday and much of Saturday. They will cook their own meals during the camporee, but enjoy a prepared meal in the dining hall Saturday noon.

After the noon meal the scouts will take up advanced scouting and various games will be played under the direction of the camp directors. At 6:30, parents of the scouts and their friends will gather for a basket picnic at the beautiful camp on the Slippery Rock.

At 7:30 a new bronze plaque recently installed in the boulder at the entrance will be unveiled. The presentation of the plaque will be made by a member of Johnson Bronze Co., who furnished the craftsmen for the remaking of the plaque.

A short talk will be made by one of our prominent citizens, interested in scouting and acceptance will be made by council president, Charles W. Carbeau.

At the conclusion of this ceremony visitors will be shown the camp where many improvements have been made this year.

Start Work On City Streets July 1

Council Imposes Regulations Upon Local Street Railway Company

Work of removing street car rails from what is known in city hall as city-owned thoroughfares will get under way July 1 in South Mill street. The city will grant excavation permits to the New Castle Street Electric Railway upon its agreement to obey specifications and pay the salary of an inspector on repaving of the slots. These were decisions arrived at by council in meeting today in city hall.

The city-owned streets tracks will be removed as follows:

South Mill street, East Washington street to Long avenue.

Mahoning avenue between Moravia street and Cedar street.

Cedar street between Mahoning avenue and Clayton street.

Clayton street between Cedar street and Liberty street.

North Beaver street between West Washington street and South street.

The order of rail removal will be accomplished in the foregoing order and will start July 1 in South Mill street. All work will be finished by August 25, it was reported.

Banquet Ends Young Judean Conference

Banquet At Castleton And Dance Winds Up Successful Young Judean Conference

Second annual conference of the Western Pennsylvania, Eastern Ohio and Northern West Virginia region of Young Judea, came to a close Sunday afternoon, in The Castleton, and for the New Castle group, it was a huge success. The theme of their sessions, was "Americanism," "Judiasm" and "Zionism."

At the banquet in the hotel dining room, Saturday evening, Florence Goldman, program chairman, acted in the capacity of toastmistress. She introduced Elmer Match of Duquesne, who gave the invocation. Following, Marian Stormwind, retiring regional president, was the main speaker of the evening. Her charm and personality captured all. In her speech, she urged the Young Judeans to "Support the war program" in every way, and to remember their two-fold purpose: That of helping Democracy at home and of helping to rebuild Palestine, so that those who live in lands of oppression, may have a haven of refuge."

Mrs. Joseph Mirow spoke on behalf of the Senior Hadassah and Miss Reva Love, for the Junior Hadassah. Saranne Weiner of Washington, Pa., gave the poem "Dreams" and Claryne Bernstein of Pittsburgh and the newly elected Regional President, delighted with several vocal solos and led in the group singing.

Following the banquet a dance was held, with a local orchestra providing the program of music, thus making their three day conference most complete in every way.

Sunday, group discussions were conducted at Temple Israel and election of officers resulted as follows: president, Claryne Bernstein of Pittsburgh; first vice-president, Robert Meyer of New Kensington; second vice-president, Aubrey Estner of McKeesport; third vice-president, Sarah Harshman of Youngstown; recording secretary, Sally Cohen of Sharon; corresponding secretary, Leatrice Kline of Pittsburgh.

The Senior Hadassah members acted as hostesses at the luncheon which featured, with upwards of nearly 120 being served. Mrs. Jack Conn, president of the local Senior group, was chairman of this part of the program. Afterwards, new officers were duly installed, by the outgoing officers.

The Zionist organization of Washington, Pa., last year presented a placque to the region, and each year it is passed on to the outstanding club of that year, in the entire region. This year, the winning group is the Deborah Girls of New Castle. Miss Audrey Landay of Washington, Pa., presented the placque to Miss Paula Levine, president of the local Deborahs, who was thrilled beyond words.

Bunde Groden, contest chairman, took charge of the forensic contests which followed. The winner of the oratorical contest was Cecelia Katz of this city, whose topic was "America." Betty Gutterman of Sharon, came in second, who also chose "America" for her subject. The winner of the original poetry contest was Esther Elefant of New Castle, her title being "This Side Of The Atlantic."

Judges for the contests were Mrs. Melvin L. Stark, Mrs. Simon Skole and Mrs. Louis Kohn.

Forest Trails Now Ready For Summer

(Special To The News)

HARRISBURG, June 15.—State Forest districts now are busily engaged in the work of road and trail maintenance, according to Road Engineer George S. Chaney, Department of Forests and Waters. Substantial progress has already been made on the improvement of 4,000 miles of State Forest roads and 3,000 miles of forest trails.

Although the State Forest roads are not considered as public roads and the Department retains exclusive control over their use, yet they are traveled extensively by tourists, fishermen and recreationists as they open up some of the remote forest areas of the State. The administration of the State Forests comprises varied activities such as fire control and suppression, tree planting, recreation, utilization and lumbering. As a result, the need for a diversified system of transportation has been clearly demonstrated.

Protection, recreation and lumbering are the major uses at the present time, of State Forest roads. These roads also simplify the protection of the forests from fire and afford ready means of access for fire fighting crews. Roads like streams provide a line of defense to stop fires, and are frequently used as a bases for backfiring and attack.

Practically all of the State Forest roads can be used by autos and during the greater portion of the year are open to the public. Some of the most beautiful scenery and scenic drives within the Commonwealth are found in the remote forest regions. The tree growth bordering these roads is maintained so that the natural beauty of the forest is preserved.

Pressed wood hardboards are being used for U. S. Army trailer exteriors, tank interiors, arsenal shell holders, refrigerator boxes and even bowling balls.
